**CONCORD LUMBER CORPORATION EXPANDS LEADERSHIP TEAM  
WITH NEW VICE PRESIDENT OF SALES**

*New Role Adds to Company's Leadership Capabilities and Strengthens Sales Teams*

**LITTLETON, MA, September 7, 2016** – Concord Lumber Corporation, a building materials supply company in Littleton, Massachusetts, announced that it has named Chuck Cormier to the position of Vice President of Sales. Cormier, who has more than 20 years of industry experience and served for the past eight years as Sales Manager and Branch Manager for Forester Moulding & Millwork (a division of Concord Lumber Corporation) will see his current role expanded and will work to strengthen Concord Lumber Corporation's sales capabilities across the region.

In this newly created position, Cormier will continue to report to company President Rick McCrobie, who previously led the company's sales teams. Cormier will be responsible for overall sales growth, sales strategies and enhanced internal and external customer service. Additionally, he will continue to oversee branch operations at Forester Moulding & Millwork. In his previous role, as Branch Manager for Forester Moulding & Millwork, the continuous increase in sales, the streamlining of manufacturing and shipping as well as the successful creation and development of a Custom Millwork department have made Chuck a valuable asset to Concord Lumber Corporation. Prior to that, Cormier served as a Millwork Distributor Territory Manager for many years as well as General Manager for a lumberyard.

Cormier will join the company's leadership team, where he will be working with President Rick McCrobie, Vice President Rick Ursch, Chief Financial Officer David Perry and Head of Purchasing Paul Tarca.

"In our 70<sup>th</sup> year, we are excited to see new growth and change come to Concord Lumber Corporation and its four divisions," said President Rick McCrobie. "Chuck draws on strong leadership and a growth track record that will be essential in this new strategic role. His experience and drive make him well-suited to lead our sales teams to even greater success."

"I am looking forward to the challenges that this new role brings," said Cormier. "This is a time of transition for our company. As an ESOP (employee-owned company), it is important that every employee feel they are part of the team, responsible for our overall growth and providing our customers with the products and services they need to be successful. I am dedicated to ensuring that this happens and that Concord Lumber Corporation will continue to prosper for many years to come."

**About Concord Lumber Corporation**

Concord Lumber Corporation operates two lumberyards, building materials and hardware stores, a millwork and moulding division, and a kitchen design center. Established in 1946, Concord Lumber Corporation is 100% employee-owned and has over 130 employees.
