# HOW TO PRINT THE CRUISING BANANA

DESIGNED by SOWIESOWIES

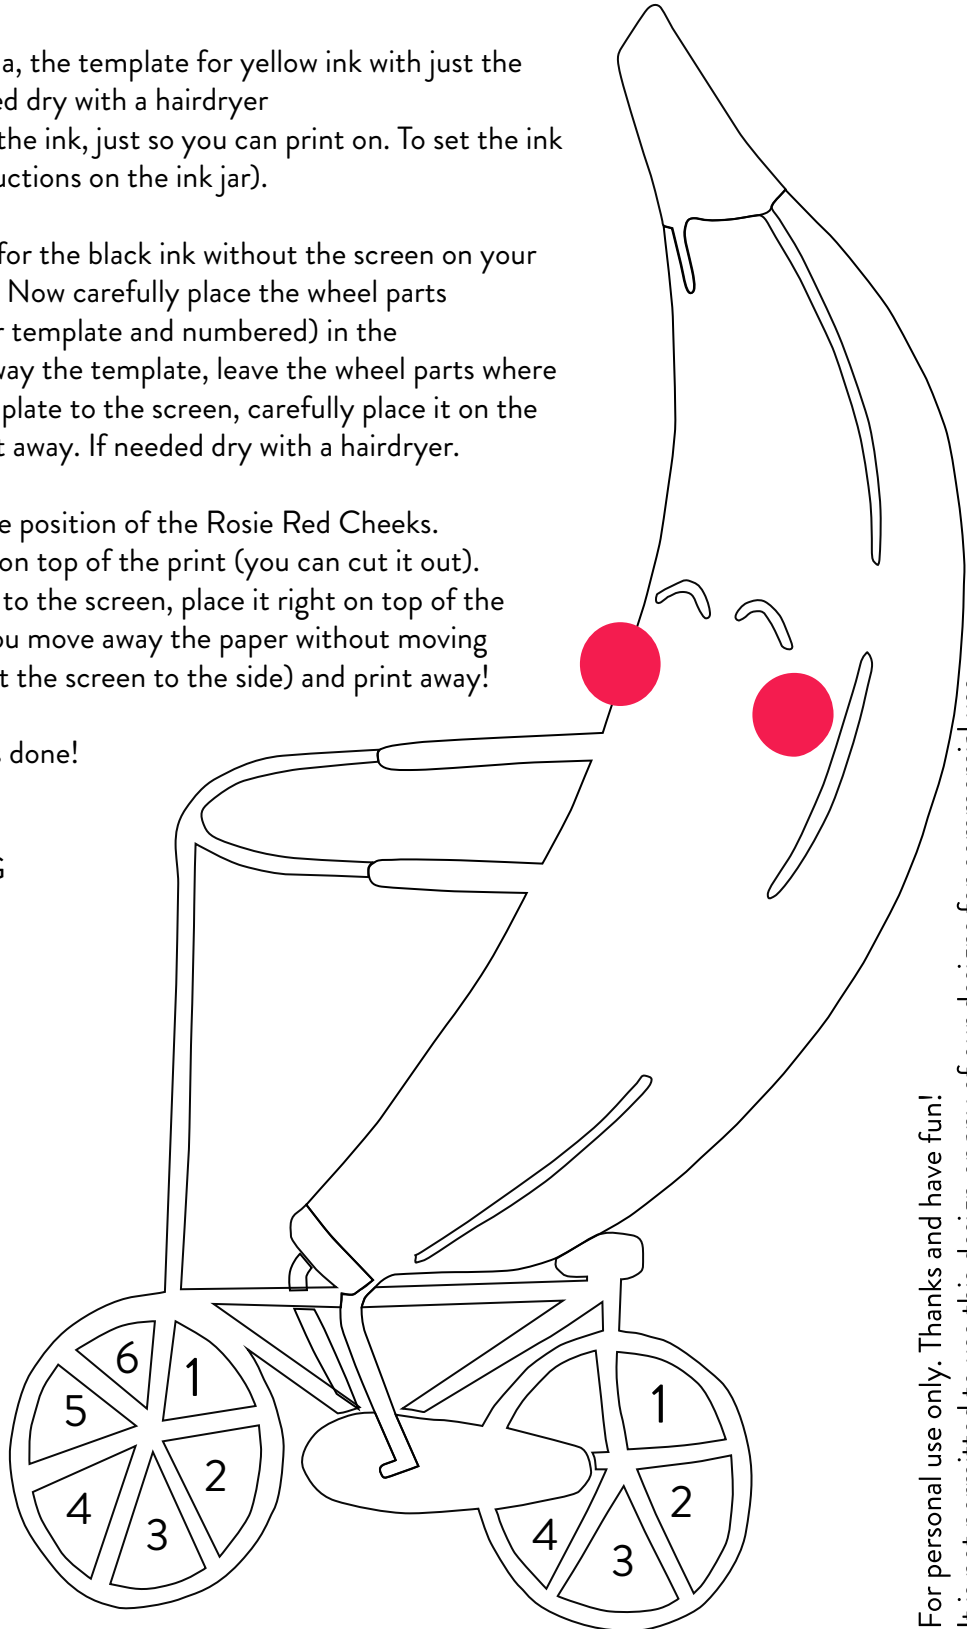

1. First print the banana, the template for yellow ink with just the banana shape. If needed dry with a hairdryer (this is not for setting the ink, just so you can print on. To set the ink please follow the instructions on the ink jar).

2. Place the template for the black ink without the screen on your printed yellow banana. Now carefully place the wheel parts (that are taped to your template and numbered) in the wheels. Gently take away the template, leave the wheel parts where they are. Tape the template to the screen, carefully place it on the right position and print away. If needed dry with a hairdryer.

3. Use this page for the position of the Rosie Red Cheeks. Lay this paper exactly on top of the print (you can cut it out). Tape the last template to the screen, place it right on top of the red dots. Make sure you move away the paper without moving the screen (you can tilt the screen to the side) and print away!

Your cruising banana is done!
