- Other*: 29.2%

*Topics included: menopause, abnormal pelvic ultrasonography, and fibromyoma uterus

Case Example

PCP has a patient in her early 30s with a bicornuate uterus who is interested in getting an IUD. PCP asks specialist if patient would be a good candidate.

- **Day 1**
  - Specialist responds with recommendation that an IUD would not be appropriate for the patient.

- **Day 6**
  - PCP accepts advice and closes case.
