

PETITION

Hospital Parking Fee Limits

Whereas the Canada health act states ‘access to quality health care without financial or other barriers will be critical to maintaining and improving the health and well-being of Canadians’

Whereas the collection of parking fees from the sick, the injured, the aged, the disabled, the chronically ill, the frantically-worried at their most vulnerable moments is morally wrong.

Whereas the LHINs currently direct hospitals to maximize all possible revenue sources before seeking government funds.

Whereas the fees for those using the parking services are largely a donation to hospital operations without an Implement tax benefit.

Whereas there are currently no parking fee caps in place.

Whereas excessive parking fees act as a financial barrier to service.

Therefore, we the undersigned petition the Legislative Assembly of Ontario to enact legislation to control the cost of parking at hospitals and similar health entities as to not financially penalise those seeking access to health services.
