

2nd July 2020

Dear Parents/Carers

The Department For Education have released guidance today regarding plans for schools in September. I am delighted that this guidance will allow us to welcome back all students, from all year groups, on a full time basis. The guidance also allows us to continue our offer of a broad curriculum for students.

There are many measures outlined within the guidance that we need to put into place to reduce risks and ensure that students, staff and the wider community are safe. Once we have had time to consider these measures and put in place the systems and processes to follow the guidelines I will write again with a further update.

Thank you again for your continued support.

Yours sincerely

Katie Boyes
Headteacher
