Our QSWI6000 has 2 Omega bars that are slotted 16" on center and 24" on center.

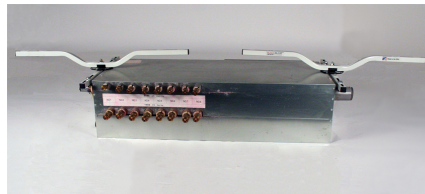

One 34" bar slotted to mount various controllers and concealed ducted air handlers.

*Powder Coated.

Quick Swivel SPECS QSWI6000

The square steel tubing cuts down on vibration while the hitch-pin adds to the safety and sturdiness of the Quick Swivel with "I" bracket.

Installation can be accomplished in minutes because all necessary hardware is provided. Attaching a Quick Swivel to your unit is fast & stress-free.

Quick-Sling's Quick Swivel provides you with a non-swinging, rotating platform that is quick, safe, stable and affordable. The Quick Swivel can easily be installed in residential or commercial applications. Turn the Swivel in any direction you need then lock it in place, it's that quick.
