RESPIRABLE CRYSTALLINE SILICA

COURSE OVERVIEW

OSHA adopted new silica standards in 2016, reducing the permissible exposure limit (PEL) in workplaces, and requiring employers to take additional steps to protect workers. Maryland is in the process of adopting the silica standard with enforcement to begin immediately. This seminar covers 29CFR1926.1153, all permissible exposure limit changes and new training requirements.

COURSE TOPICS

- **29CFR1926.1153—Exposure to Respirable Crystalline Silica in Construction**
- **Reduced PELs**
- **Engineering Controls**
- **High-Exposure Area Control**
- **Written Exposure Plan**
- **Medical Requirements**
- **Training Requirements**
- **Respiratory Protection Equipment & Requirements**

Audience

All workers who may be exposed to respirable crystalline silica.

Course Date

Thursday, July 12, 2018

Course Time

2 -4 PM

Cost

\$75/person, Free for Contract Clients

Expiration

Does not expire.

Prequalification

No prequalification required.

Location

1938 Windsor Drive
Salisbury, MD 21801
