# Guess Who's A Mom!

Madona! She is expecting a girl. Her name will be Lola. Lola will be born around January '97. Madona is very excited, even though Lola will not have a real father. Madona says she will take excellent care of Lola. Madona will be considering weather to take Lola with her on her tours or to have a baby-sitter at home. So far it looks like Lola will be traveling alot.

Dear Ashley,

My husband and I just moved across the country and we have just got settled and our children are driving us up the wall, we are very stressed out and we just bought a dog. Will you help me.

— Stressed out

Dear Stressed out,

It sounds as if you need a vacation, a little time to yourselfs will do you good. Take the kids to the grandparents have the neighbors take care of him. Hope my advice is good.

Ashley Gilbert
