News Release

October 5, 2018

The Democratic Party of Guam issued the following statement:

Former Senator Lou Leon Guerrero and Joshua Tenorio were certified by the Guam Election Commission as the Gubernatorial Candidates in the 2018 Primary Election. Therefore, the Leon Guerrero-Tenorio gubernatorial team is our party's standard bearer.

We know that Senator Aguon and Attorney Limtiaco have had a hard time accepting that fact. But it's wrong for the same small group of People who attacked Senator Rodriguez, Governor Gutierrez, Senator Lou Leon Guerrero, Josh Tenorio, and others in our Primary are now using this loss to divide our People's choice. The sponsors of this effort endorsed Aguon-Limtiaco. Clearly, if the situation were reversed, this same group would ask others to respect the will of the people.

Democrats value fairness, equity, and the trust that comes from saying what you mean and meaning what you say. Whatever our differences, we work to educate our children, keep our communities safe, create good-paying jobs, and provide healthcare as a right, not a privilege. These goals are harder to achieve when we can't trust each other to keep our promises.

While we are confident that Lou and Josh will lead us to Adelup, we regret that Senator Aguon and Attorney Limtiaco are being used to achieve someone one else's desperate pursuit of power.

Our Party exists for the People of Guam. The Democratic Party of Guam solidly stands behind all Democratic candidates who qualified in our past primary race and respect the collective decision of all of Guam's voters in choosing the Democratic gubernatorial team of former Senator Lou Leon Guerrero and Josh Tenorio, the 15 Democratic senatorial candidates and Sen. Michael San Nicolas, as the Democratic nominee for Guam's delegate to U.S. Congress.
