

## **Vacancy student assistant Urban Energy Platform (UEP)**

(Max 8 hours per week)

The [Urban Energy Platform](#) is one of the pillars of the Delft Energy Initiative. The platform aims to contribute to delivering a carbon-free urban energy system in the Netherlands in 2050, by working on research challenges categorised along 6 intertwined themes.

The UEP has a vacancy for a student assistant, to start in March or April 2019, for the following tasks (not exhaustive):

- Support in organising events (symposia, lunch lectures, student events, internal events);
- Support in further increasing the visibility of the urban energy platform internally as well as externally;
- Support in preparing project proposals.

The student assistant is expected to attend the bi-monthly UEP meeting, with the possibility to work remotely at your own convenience for many tasks.

Profile: master student with knowledge of energy systems, e.g. from SET, Architecture, Industrial Ecology or COSEM

If you are interested in this position, or for further enquiries, direct your email to Devin Diran at [D.D.D.Diran@tudelft.nl](mailto:D.D.D.Diran@tudelft.nl) with a brief motivation along with your CV by February 28.
