ETAT LIBRE D'ORANGE PERFUME

GASCOIGNE & KING

ABOUT US

Bronwyn Gascoigne is the driving force behind the Gascoigne & King brand. With a keen interest in fragrance, perfumes and beautiful natural products, she began to make candles after finding it incredibly difficult to source high quality, environmentally friendly products with a focus on exciting fragrance blends and great design.

By 2008 she had created a range of beautifully fragranced candles, the word had spread amongst the boutique designer retail community and Gascoigne & King's journey began.

Her inspiration comes from the places in the world we live in. All Gascoigne & King candles are hand-made in her studio in Surry Hills, Sydney.

OUR PHILOSOPHY

Gascoigne & King are a boutique candle & soap maker, aspiring to create beautiful & luxurious fragrances for the home and body. Our product range has been developed with a focus on minimalist design and the highest quality possible, whilst at the same time caring for our environment.

Along with an environmental message we highly value the relationship we have with our customers, many of which have existed now for as long as we have. We offer a very personal service that still includes hand delivering to our Sydney retailers.

At Gascoigne & King our business is an extension of all that we love. Family, friends, travel & new experiences.

ETAT LIBRE D'ORANGE

Headquartered in their gorgeous flagship corner store at 69 Rue des Archives, in le Marais, Paris 3E, Etat Libre d'Orange is an alternative, audacious and provocative perfume house known for taking risks and breaking the rules of the established fine fragrance industry.

Like Gascoigne & King, Etat Libre d'Orange are a small team and are extremely passionate about bringing their customers a unique and high quality product with a different point of view. We share very similar brand philosophies. If you love Gascoigne & King you are going to love Etat Libre d'Orange - we can't wait to introduce you to our new French friends.

GASCOIGNE & KING
