About Amy

Amy Wood has been in healthcare since 1996, in direct patient care for nursing homes and hospitals before working in dental in 2004 with ACS. She studied law at the University of Iowa and utilizes her contract law education in reviewing Business Associate Agreements for dental practices.

She has served multiple terms on the Board of Directors of the Dental Integrators Association, authoring white papers and HIPAA courses for IT providers in the dental vertical.

Amy is a member of InfraGard, a joint task force with the FBI and the private sector to address security in key sectors, such as healthcare.

Under Amy's leadership, ACS Technologies, LLC has garnered a reputation for a complete solution for HIPAA Compliance in the dental field. The Dental Board of California recognizes ACS as a Continuing Education Registered Provider. Their IT security suite and Risk Assessment and documentation has helped numerous dental practices pass HIPAA audits and investigations, and their comprehensive Cyberliability/Data Breach Insurance ensures practices' financial survival in the event of a breach.

Amy educates private practices and clinics individually, as well as dental associations, study clubs, disability groups and other events.

Testimonials

Great material, very well presented with explicit and clear goals for my office. Format was relaxed and very thorough. I have taken HIPAA courses at local dental society meetings but often felt lost and not knowing what to do next with my office. This is a must take course and can save you trouble and fines in the future. Kudos to Amy for organizing this material and multiple layers of regulation into an easy to understand format.

—Dr. Nicholas Rotas, Placer OMFS

Our office loves having Amy keeping us HIPAA compliant. Her class is not like typical HIPAA training that often leaves people confused. The specific details and examples of real practices just like ours makes it relatable. Unlike other consultants, Amy takes a practical approach to achieving compliance and helps us work an appropriate plan for our practice.
