

This document provides the Colorado Marijuana Industry Licensees with a list of third party companies who are participating in the Metrc Application Programming Interface (API) integration program. This list identifies integrators as either Registered or Validated.

**Registered:** Integrators on this list have received Franwell training, instructions and have signed a Marijuana Enforcement Division (MED) Confidentiality and User Agreement. These “Registered” integrators have been provided with access to the Metrc API for sales upload.

**Validated:** integrators on this list have met requirements to be considered “Registered” and have taken the additional step of having demonstrated their ability to perform the functions specified in the validation section. These “Validated” integrators have been provided with access to the Metrc API and can integrate with each area specified.

It remains the responsibility of the Licensee to enter accurate information into the system to comply with all rules and regulations. The “Validated” integrator has demonstrated an ability to perform functions using the Metrc API, but the licensee must always ensure the information entered into Metrc is accurate. Industry participants will need to work directly with the member to obtain support for their solution.

If you have questions about this list or the process of becoming “Registered” or “Validated”, including how your business could become validated, please contact Metrc at [api-info@metrc.com](mailto:api-info@metrc.com).
