

EARTH DAY GLEANNING CELEBRATION

Saturday, April 20th 10am-12pm

Join Healthy Acadia's Downeast Gleaning Initiative for the first volunteer event of 2019!

Help us get ready for the upcoming harvest season by washing harvest crates in the sunshine and sprucing up our food storage space. There will be an opportunity to learn how the Gleaning Initiative improves the health of our communities, and the different ways that volunteers can get involved with projects throughout the season. Light refreshments will be provided.

The Downeast Gleaning Initiative organizes the collection of surplus fruits and vegetables from local farms and markets for redistribution to food security organizations across Hancock and Washington counties.

What: Gleaning Volunteer Event

When: April 20, 2019 // 10am-12pm
