BOULOGNE-SUR-MER

A stone's throw from the English shuttle, two hours from Paris and at the heart of Côte d'Opale and the Boulonnais Natural park. A welcoming region of rolling hills. Boulogne sur mer has the power to astonish and seduce those who've never visited before.... A Rich heritage which gives it the desirable title « Ville d'art et d'histoire », the Upper Town bears witness in stone with a 12th century belfry, superb 13th century ramparts, a Château Musée not to be missed, an imposing cathedral and a medieval crypt. City of the sea : Nausicaa Sea Center offers a fantastic trip to the depths of the oceans and reminds us that Boulogne is also France's biggest fishing harbour with seafood cuisine appreciated by all gourmets.
