[julie.marburg@dmschools.org](mailto:julie.marburg@dmschools.org)**

### **I Gen - Turning Distress Into Success: A Community Approach**

*Katey McPherson*

This 3-hour workshop is supported by the latest evidence-based brain science, teaching strategies, and national research. Participants will walk away with a roadmap of what types of technology are impacting the developing brain and how stakeholders can help moderate exposure, provide a bridge to encourage parents and schools to provide ongoing and pervasive training in the areas of digital wellness and social-emotional empowerment, as well as to teach students how to self-advocate for themselves in person and online.

### **Hidden in Plain Sight: Substance Abuse Prevention Training**

*Officer Jermaine Galloway - the "Tall Cop"*

This workshop is for law enforcement, probation officers, school administration, treatment providers and counselors. This session provides over 120 visual aids for attendees to hold and become familiar with. This workshop covers alcohol and drug clothing, alcoholic energy drinks, alcohol and drug concealment methods, drug paraphernalia, youth party tendencies, party games, non-traditional alcoholic beverages, social networking sites, synthetic drugs, OTC drugs, inhalants, concentrates, E-cigarettes, opioids and popular party drugs.

### **Why Teens Kill**

*Phil Chalmers*

This seminar is fast-moving and will cover over 30 juvenile homicide cases. This course teaches the top ten reasons juveniles kill, the six types of teen killers, the warning signs that were missed, and ways we can keep our schools and communities safe. Phil provides a side of teen murder that nobody else can really provide, and that is a description of the crimes from the killers themselves, whom Phil has spent over 30 years interacting and building a relationship with. Phil warns that he will take attendees "Inside the Mind of a Teen Killer," which is a very dark and disturbing place.

**\*Warning: Content in this seminar may be troubling, offensive, and disturbing for some attendees.**
