Tuesday, April 16, 2019

(P) = Planning ACIP Credits  (E) = Engineering PDH Credits

10:00 am - 4:00 pm  Registration Desk Opens, 4th floor South Tower in Exhibit Hall
10:00 am - 8:00 pm  Exhibitor Set-up in the Grand Exhibit Hall
3:25 pm – 6:00 pm    Exhibit Hall OPENS For All Attendees

10:30 am – 12:00 pm
1. Multi-Disciplinary Traffic Incident Management (TIM) Program in New Jersey
   (P) (E)  Room: Carousel (South Tower)
   TIM is a national effort to accomplish three goals: responder safety, quick incident clearance and interagency communication. Effective TIM programs are recognized as beneficial to the safety of responders and civilians alike while reducing the impacts of crashes on the local, county and state road networks. This discussion will describe the current efforts underway in NJ at the State level, and what agencies can do to be more involved in TIM at the local levels.
   Moderator: Mike Moran, Manager, NJDOT, Statewide Incident/Emergency Management & Transportation Security
   Speaker: Tim Weiss, Senior Planner, Emergency Management Unit, NJDCA
   Speaker: SFC Sam Cappuccio, NJSP, Regional Incident Management Coordinator (RIMC), Incident Management Unit
   Speaker: Paul Carafides, Senior Transportation Planner, DVRPC
   Speaker: Robert Pomykala, NJ TIM Statewide Coordinator

2. Preparing for the Future of Parking
   (P) (E)  Room: Pageant (South Tower)
   How do you plan for parking in a world of changing technologies about mobility? TNCs already impact parking demand today in numerous markets. The impact of AVs is also anticipated to reduce parking demand. Parking infrastructure needs to meet today’s demands and be flexible enough to adapt to future needs. The presentation summarizes the current state of autonomous vehicles, discusses the impacts to parking, and outlines adaptive reuse features and strategies.
   Speaker: James Pudleiner PE, Vice President, Walker Consultants
   Speaker: Will Rhodin, Senior Consultant, Walker Consultants

3. Is NJ Mad for MOD (Mobility on Demand)?
   (P) (E)  Room: Salon 2 (North Tower)
   The transportation technology innovation Mobility on Demand/Mobility as a Service is alive, rapidly growing, continuously evolving, and creating many changes in how travel occurs in New Jersey and elsewhere. While it seems that ridesourcing (Uber, Lyft, etc.), is everywhere, MOD is far more – it’s also car sharing, bike sharing, ridesharing (carpooling), and includes many other shared mobility options. In this session, speakers will provide details that explain what MOD is and how it is changing the transportation landscape. This session will also discuss how MOD connects users to various transport modes, its benefits and impacts. Information on various types of MOD and current NJ examples will also be covered.
   Moderator: Gail Yazersky, Planner, Transportation Mobility, NJDOT
   Speaker: Ryan Sharp, Director of Transportation and Parking, City of Hoboken
   Speaker: Rita McNany, Parking Services Manager, Parking Services Agency, City of Summit
   Speaker: Kathleen Swindler, Supervising ITS Engineer, WSP
   Speaker: Sue Catlett, Project Manager, Transportation Mobility, NJDOT

**Tuesday, April 16, 2019**

(P) = Planning ACIP Credits  (E) = Engineering PDH Credits

10:30 am – 12:00 pm  (Continued)

4. **Saving Lives with the Use of High Friction Surfacing Techniques**  
   (P)  
   **Room: Seaside (South Tower)**
   How NJ DOT and Counties have statewide safety program to treat problematic high crash locations throughout the state. HFST originally began as a successful treatment for intersections and pedestrian crossing. While HFST is an FHWA (EDCII) safety countermeasure for roadway departure crashes it is being underutilized for intersections and pedestrian high risk locations. It was first used in NJ in the late 90's and it is currently being used nationally by 38 state DOT. With crash reductions of up to 90% the process is fast becoming the first choice for safety engineers.
   **Speaker:** Richard Baker, Market Development Manager, DBI Services  
   **Speaker:** Frank Julian, Safety Consultant (FHWA – retired), HFST Association

5. **Public Transportation Agency Safety Plans**  
   (P) (E)  
   **Room: Salon 1 (North Tower)**
   This session will present the Federal Transit Administration’s (FTA) Public Transportation Agency Safety Plan (PTASP) Final Rule published on July 19, 2018. PTASP requires certain operators of public transportation systems that receive federal funds under FTA’s Urbanized Area Formula Grants to develop safety plans that include the processes and procedures to implement Safety Management Systems (SMS).
   The rule implements an innovative, performance-based approach to improving transit safety founded on SMS principles. SMS is a comprehensive, collaborative approach to managing safety. It brings management and labor together to control risk better, detect and correct safety problems earlier, share and analyze safety data more effectively, and measure safety performance more precisely.
   SMS implementation will provide transit agency leadership with a better understanding of the safety risks within their organizations and enable them to maximize federal, state and local transit investments to proactively implement appropriate solutions to address those risks and ensure the safety of transit passengers and employees. This is codified at 49 U.S.C. § 5329(d).
   **Moderator:** Donald Burns, AICP; FTA  
   **Speaker:** Hans Pointdujour, FTA

12:00 pm – 1:00 pm  
Lunch on your own. There are numerous restaurants, fast food and kiosks located throughout the Tropicana. Visit the Tropicana web site at [www.tropicana.net](http://www.tropicana.net) for a list of places to eat.

1:00 pm – 2:15 pm

6. **ITS Architecture and System Engineering**  
   (P) (E)  
   **Room: Carousel (South Tower)**
   ITS Architecture and Systems Engineering represent the fundamental building blocks for technology-based projects. Unfortunately, New Jersey was not always following the guidelines for these building blocks stringently because they were cumbersome. This session will focus on the changes that have been made to these guidelines to make them more “user-friendly” and easier to follow.
   **Moderator:** Noel Toner, Principal Engineer, NJDOT, Division of Mobility Engineering  
   **Speaker:** Wasif Mirza, Director, NJDOT, Division of Mobility Engineering  
   **Speaker:** Kelly McVeigh, Principal Engineer, NJDOT, Division of Mobility Engineering  
   **Speaker:** Mike Doenges, Connected Trans. Solutions Specialist, CISCO
Tuesday, April 16, 2019

(P) = Planning ACIP Credits  (E) = Engineering PDH Credits

1:00 pm – 2:15 pm  (Continued)

7. Bike-Friendly Resurfacing: New Methodologies for Bicycle Facility Implementation
   (P)  (E)  Room: Parade (South Tower)
   Annual road resurfacing projects offer a tremendous opportunity to implement new striping plans and help make biking and
   walking safer at a relatively low cost. But how do you prioritize locations for bike-friendly improvements, and then evaluate and
design new striping plans within tight resurfacing project timelines? Panelists will present new approaches to bicycle facility
planning including the PennDOT Connects Coordinated Bike-Friendly Resurfacing Program and the Mercer County Master
Plan Bicycle Element. For each project, panelists will discuss how the planning process was informed by the geographic
context, relevant partnerships, and available technology.
   Moderator: Al Beatty, Transportation Planner, Delaware Valley Regional Planning Commission
   Speaker: Sarah Moran, Senior Transportation Planner, Delaware Valley Regional Planning Commission
   Speaker: Thom Stead, Transportation Planner, Delaware Valley Regional Planning Commission

8. Rehabilitating Historic Structures: Overcoming Challenges to Make a Successful Project
   (P)  Room: Seaside (South Tower)
   The workshop will demonstrate how challenges associated with working with historic structures can be overcome through
careful attention to detail, thoughtful design considerations and a robust stakeholder involvement process. The rehabilitation of
a 1880 pin-connected truss and a 3-span masonry arch built in 1697, the oldest bridge in America, will be presented.
   Moderator & Speaker: Michael Cuddy, PE, Principal/Senior Vice President, TranSystems
   Speaker: William Pyontek PE, Chief Engineer, French & Parrello Associates

9. Don't Be Afraid of Federal Funding (on County and Municipal Projects)
   (P)  Room: Reilly (Inside Exhibit Hall/South Tower)
   How to take advantage of federal funding opportunities for your local projects. Programs, Resources, Best Practices, Lessons
   Learned.
   Moderator: Dave Kuhn, Greenman-Pedersen, Inc.
   Speaker: Robert Clark, Division Administrator, FHWA - New Jersey
   Speaker: Laine Rankin, Director, Local Aid, NJ Department of Transportation
   Speaker: Sascha Frimpong, Director, Local Project Development, NJTPA
   Speaker: Dale Foster, Asst. Vice President, Greenman-Pedersen, Inc.

10. Best of the NJTPA Subregional Studies: Local Projects Advancing Long-Range Goals
    (P)  Room: Salon 2 (North Tower)
    The NJTPA's Subregional Studies Program helps the 13 counties and two cities represented on the NJTPA Board develop
transportation improvements that implement regional planning goals. This session highlights three of the program’s success
stories.
    Moderator: Angel G. Estrada, NJTPA Chair & Union County Freeholder
    Speaker: Liza Betz, Transportation Planning Manager, Union County
    Speaker: Elizabeth Ward, Principal Planner Passaic County Department of Planning & Economic Development
    Speaker: David Schmetterer, Principal Planner, Monmouth County Division of Planning
Tuesday, April 16, 2019

(P) = Planning ACIP Credits  (E) = Engineering PDH Credits

1:00 pm – 2:15 pm  (Continued)

   (P) (E) Room: Salon 1 (North Tower)
   This session will present and discuss the connection between the Federal Transit Administration’s (FTA) Public Transportation Agency Safety Plan (PTASP), Transit Asset Management (TAM) and Performance-Based Planning Process (PBPP) final rules. During this panel session FTA will discuss how MPOs, transit agencies, and state DOTs can work together to connect planning, evaluation, and programming within TAM and PTASP via PBPP.
   Moderator: Donald Burns, AICP; FTA
   Speaker: Raymond Tomczak, AICP; FTA
   Speaker: Hans Pointdujour, FTA

12. Safe Senior Mobility  
   (P) Room: Pageant (South Tower)
   With a growing aging population, there will be presentations about determining the age-friendless of towns based on land use. Also, how do environmental factors affect safe walkability for seniors.
   Moderator: Kelvin MacKavanagh, DVRPC Regional Safety Task Force
   Speaker: Kevin Murphy, Manager of Safe Streets, DVRPC
   Speaker: Dr. Anne Mitchell, the Jefferson College of Nursing
   Speaker: Tim Evans, Director of Research, New Jersey Future

2:20 pm – 3:25 pm

13. NJ Safety Voyager  
   (P) (E) Room: Carousel (South Tower)
   The Federal Highway Administration, New Jersey Department of Transportation and Greeman-Pedersen, Inc. (GPI) in an ongoing safety initiative, have collaborated to develop the web-based Safety Voyager crash analysis platform. The various tools allow safety engineers and decision makers at NJDOT, the MPOs, counties and municipalities to visualize crash data, ball banking reports, traffic counts, AADT data, and other NJDOT safety data layers in an easy to use map-based interface.
   Moderator: Chris Zajac, Section Chief, NJDOT
   Speaker: Mark Day, Director of Application Development, GPI

   (P) Room: Salon 2 (North Tower)
   This session highlights successful efforts by the NJTPA, its subregions, and partners to improve safety across the region. Examples include the Street Smart NJ pedestrian safety education campaign and the NJTPA’s Local Safety and High Risk Rural Roads Programs among others.
   Moderator: Kathy DeFillippo, NJTPA Third Vice Chair & Morris County Freeholder
   Speaker: Lois Goldman, Director Long Range Planning, NJTPA
   Speaker: Christine Mittman, Manager Safety Programs, NJTPA
   Speaker: Keith Hamas, Principal Planner, Safety Planning, NJTPA
Tuesday, April 16, 2019

(P) = Planning ACIP Credits  (E) = Engineering PDH Credits

2:20 pm – 3:25 pm  (Continued)

15.  Burlington County Highway Master Plan: An Interactive Transportation Tool
(P) (E)  Room: Rolling Chair (South Tower)
The BCHMP is an online, interactive highway master plan for Burlington County, New Jersey. This tech-heavy session will delve into the intricacies of the Congestion Management Process (CMP), regional modeling, GIS analysis, and the application of this tool in planning activities. Join this session to learn about the features of this plan and explore how to make quantitative planning analysis more accessible and useful.

Moderator: Joe Brickley, County Engineer, Burlington County
Speaker: Sarah Moran, Senior Transportation Planner, DVRPC
Speaker: Sean Lawrence, Senior Transportation GIS Analyst, DVRPC
Speaker: Karen Whitaker, Transportation Planner, DVRPC

16.  Origin-Destination Analytics and Arterial Performance Measures
(P) (E)  Room: Salon 1 (North Tower)
This workshop provides an overview of new Origin-Destination data obtained from cell phones and freight telematics providers—focusing on how this data is being used for emerging TSMO and planning applications to answer questions once thought impossible. Using real-world use-cases, we will provide live demonstrations of analytics will showcase signalized arterial performance measures, people movement analytics, construction before and after studies, and other ops and planning applications using this data.

Moderator: Denise Markow, TMSO Lead, I-95 Corridor Coalition
Speaker: Michael Pack, Director, UMD CATT Lab
Speaker: Mark Franz, Transportation Engineer, CATT Laboratory
Speaker: Stephen Remias, Professor, Wayne State University

17.  Reasonable Suspicion Training – Session 1 of 2
(P)  Room: Pageant (South Tower)
This 2-hour course will provide attendees with the knowledge and certification to perform reasonable suspicion drug tests at their facility. Attendees will learn the signs and symptoms of drug and alcohol use, how to interview a suspected employee, and how to properly document the interview and drug test.

Presenter: Brandon Fox, Corporate Safety Director, Total Transportation Corp.

3:25 pm – 6:00 pm  Expo Hall Opens for Attendees
Tuesday, April 16, 2019

(P) = Planning ACIP Credits  (E) = Engineering PDH Credits

3:25 pm – 3:55 pm  Refreshment Break Located in Rear of Expo Hall.
(Beverages, Jumbo Gourmet Cookies, Fresh Fruit Cocktail, Large Philly Pretzels)

4:00 pm – 5:00 pm

18. A Data Driven Approach to Regional Transit Priority Setting
(P) (E)  Room: Parade (South Tower)
Where is surface transit unreliable? Where are there gaps in the transit network? DVRPC's Regional Transit Priority Platform is a regionally-consistent, data driven toolset that helps planners answer these questions. Presenters will discuss the project's methodology and applications to transit planning.

Moderator & Speaker:  Sarah Moran, Senior Transportation Planner, DVRPC
Speaker:  Addison Larson, Planning Data Scientist, DVRPC

19. Making History: The Goethals, Bayonne and Trenton Makes Bridges
(P) (E)  Room: Salon 2 (North Tower)
Historic landmarks have stories worth telling. These stories engage generations, capturing the challenges and trials that the designers, engineers and construction teams faced to bring a project to reality. With this in mind great projects like the Goethals Bridge, Bayonne Bridge and the Trenton Makes Bridge will be discussed. The session will include a 25-minute professionally produced documentary TV ready film of the Goethals Bridge and a short film about the Trenton Makes Bridge.

Moderator:  Chris Stokes, Principal, Vice President and Creative Director, Stokes Creative Group, Inc.
Speaker:  Robert Wise, Principal Senior Architectural Historian, RGA, Inc.
Speaker:  Roy Little, Chief Engineer, DRJTBC
Speaker:  Paul Wojcik, Senior Project Manager, PANYNJ

Thank you, thank you, thank you, thank you

Refreshment Break Sponsors
Tuesday, April 16, 2019

4:00 pm – 5:00 pm  (Continued)

20. New Jersey Transportation Bank
(P)
Room: Carousel (South Tower)
A new, low-cost tool for counties and municipalities. Come hear about the latest financial product offered jointly between DOT and the NJ I-Bank. The (grant-like) NJ Transportation Bank offers a portion of funding at 0% saving program participants an estimated 25% of their project costs.

Moderator: David Zimmer, Executive Director, NJ Infrastructure Bank
Speaker: Laine Rankin, Director of Local Aid & Economic Development, NJDOT
Speaker: Elkins Green, Director of Environmental Resources, NJDOT
Speaker: Frank Scangarella, Assistant Director, COO, NJ Infrastructure Bank
Speaker: Joe Brickley, County Engineer, Burlington County
Speaker: Tricia Gasparine, Bond Council, Transportation Bank

21. Creating Vibrant North Jersey Transit Hubs
(P)
Room: Salon 1 (North Tower)
Together North Jersey, the NJTPA, and the NJ Chapter of the American Planning Association co-sponsored a program that identified three pilot locations (Dunellen Train Station, Passaic Main Avenue Bus Facility, and the Watsessing Avenue Train Station in Bloomfield) for vibrant, unique transit hubs. This session outlines the program’s goals, initial results, and potential to create a more prosperous, efficient future for North Jersey communities.

Moderator: Kathy DeFillippo, NJTPA Third Vice Chair & Morris County Freeholder
Speaker: Jeff Vernick, AICP, PP, Manager, Performance Analysis & Planning, NJTPA
Speaker: Carlos Rodrigues, Principal, Design Solutions LLC
Speaker: Paul Drake, Regional Public Affairs Manager, PSEG

22. Bike Safety Education and Enforcement
(P)
Room: Rolling Chair (South Tower)
This session will review Bicycle Safety Education and Enforcement, a community education and enforcement program designed to improve bicycle safety in communities. The session will review what BSEE operations are, how community leadership, local advocates, and local police can work together to carry out BSEE activities in their community, and lessons learned from pilot program activities carried out in 2018.

Presenter: Ranjit Walia PP/AICP, Principal, Civic Eye Collaborative

23. Pedestrian Focused Safety Performance Measures Using Computer Vision
(P)  (E)
Room: Seaside (South Tower)
Jersey City recently procured TrafficLink devices to help them achieve their newly adopted Vision Zero strategy. Using the Miovision TrafficLink platform, they’re able to communicate with their signals remotely in order to better manage maintenance and operations, as well as collect SPAI data, Travel Time, and 24/7 turning movement counts. They are also able to use multimodal video detection from TrafficLink to actuate their traffic signals. Leveraging ATSPMs, through the TrafficLink platform, the traffic team in Jersey City is able to identify problems more efficiently, and subsequently make data-driven decisions by testing different mitigation strategies to help improve mobility and reduce emissions across the corridor, while helping citizens save fuel during their commutes.

Moderator & Speaker: Carl Puddy, Market Development Executive, Miovision

24. Reasonable Suspicion Training – Session 2 of 2
(P)
Room: Pageant (South Tower)
This 2-hour course will provide attendees with the knowledge and certification to perform reasonable suspicion drug tests at their facility. Attendees will learn the signs and symptoms of drug and alcohol use, how to interview a suspected employee, and how to properly document the interview and drug test.

Presenter: Brandon Fox, Corporate Safety Director, Total Transportation Corp.
NJ TransAction Conference Program Schedule and Workshop Sessions

Wednesday, April 17, 2019

(P) = Planning ACIP Credits  (E) = Engineering PDH Credits

8:00 am - 4:00 pm  Registration Desk Opens, 4th floor South Tower in Grand Exhibit Hall

9:00 am – 12:00 pm  North & South Jersey Transit Advisory Committee Members Meeting in the Board Room  
(Invitation Only)

8:15 am - 9:15 am  Exhibit Hall Open & Continental Breakfast in Rear of Exhibit Hall

THANK YOU  THANK YOU  THANK YOU  THANK YOU

Continental Breakfast Sponsors

BACK BY POPULAR DEMAND

The Exhibit Hall Scavenger Hunt will take place on Wednesday, April 17th. There will be ten (10) $100 TD Bank Gift Cards raffled to those successfully complete the scavenger hunt.

Winners will be chosen on Wednesday, April 17th at 7:15 PM by a random drawing. You DO NOT need to be present to win.

Use your mobile device and the TransAction App to search the exhibit floor for the "good" QR codes. Additional instructions included in this program.

(E) = Engineering PDH Credits  (P) = Planning ACIP Credits

9:15 am - 10:15 am

25. NJ TRANSIT Contracting Opportunities
   Room: Reilly (Inside Exhibit Hall/South Tower)
   NJ TRANSIT will provide an overview of significant projects underway and outline upcoming contracting opportunities. Staff will further highlight the advancement of two major bridge replacement projects, including Portal North Bridge (on the Northeast Corridor) and Raritan River Bridge (on the North Jersey Coast Line). Discussion will include the existing structures, the need for replacement, status of design, and project schedules.
   Moderator: Eric Daleo, Assistant Executive Director, Capital Planning & Programs, NJ TRANSIT
   Speaker: Kerry Donovan, Chief, Construction Management, NJ TRANSIT
   Speaker: Jeremy Zhang, Senior Project Manager, Capital Planning & Programs, NJ TRANSIT

26. Streamlining--Front Line Facts, Pitfalls, and Pointers
   Room: Salon 1 (North Tower)
   Join project and agency leadership, including the Presidential Appointee and Executive Director of the Federal Permitting Improvement Steering Council (FPISC) to discuss how streamlining works, benefits to projects being on the Permitting Dashboard, and how FAST Act provisions are being implemented. The FPISC was created by FAST-41 and tasked with improving Federal infrastructure.
   Current funding and finance realities put pressure on project implementers to quickly deliver major infrastructure projects. Expedited delivery reduces the project duration thus saving annual escalation financing and construction costs and provides users project benefits sooner. Implementing agencies are looking at every phase of the project life cycle to address overall project cost including innovative finance (e.g., public-private partnerships), rethinking project delivery approaches (e.g., design-build), and expediting regulatory reviews (e.g., environmental streamlining).
   Learn about these aspects of streamlining:
   • U.S. DOT’s recent implementation of FAST Act streamlining provisions – 23CFR 771 and 774 changes as of 11/28/2018
   • Section 106 streamlining through the Program Comment approach
   • NEPA Assignment – how some states are embracing assignment/delegation to improve NEPA document delivery times
   Moderator: Mike Davis, Transportation Lead, ICF
   Speaker: Alex Herrgott, Executive Director, Federal Permitting Improvement Steering Council (FPISC)
   Speaker: Ruth Foster, Acting Director, Office of Permit Coordination and Environmental Review, NJDEP
   Speaker: Robert Lane, Senior Technical Specialist, ICF

27. The Use of Real-Time and Archived Operations Data for Congestion Planning and Incident Management
   Room: Rolling Chair (South Tower)
   The growing availability of real-time and archived travel time data is providing planners throughout New Jersey with a treasure trove of data that can be used for congestion planning, performance measurement, and incident management.
   Moderator: Andrew Tracy, Program Manager, Capital Programming & Project Development, SJTPO
   Speaker: Tom Edinger, Senior Transportation Planner, Delaware Valley Regional Planning Commission
   Speaker: Brian Fineman, Director, Systems Planning, North Jersey Transportation Planning Authority
   Speaker: Bob Glantzberg, Director of Operations, TRANSCOM
Wednesday, April 17, 2019

(P) = Planning ACIP Credits  (E) = Engineering PDH Credits

9:15 am - 10:15 am  (Continued)

28.  **State Transportation Innovation Council (STIC) – Your Roadmap to Transportation Innovation**  
    (P)  
    **Room:**  Seaside (South Tower)  
    Learn how NJ has become a leader in deploying innovation through FHWA’s state-based initiative known as the State Transportation Innovation Council (STIC). Meet key members of NJ’s STIC and find out what their role is in this important endeavor. Get inspired by the many innovations NJDOT and others have deployed and discover what’s in store for the future. Learn about STIC funding and how to get your innovations on the ground.  
    **Moderator:**  Michael Russo, Assistant Commissioner - Planning, Multimodal & Grant Administration, NJDOT  
    **Speaker:**  Amanda Gendek, Manager, Research, NJDOT  
    **Speaker:**  Sal Cowan, Director, Traffic Operations, NJDOT  
    **Speaker:**  Helene Roberts, Performance Manager, FHWA, NJ Division  
    **Speaker:**  Bill McGarrigle, Vice President & General Manager, Urban Engineers-Transportation Planning and Design  
    **Speaker:**  Mary D. Ameen, Executive Director, North Jersey Transportation Planning Authority

29.  **Rockfall Ahead! A Risk-Based Approach to Mitigate Rockfall Hazards and Improve Transportation Safety**  
    (P)  (E)  
    **Room:**  Carousel (South Tower)  
    Learn about NJDOT’s use of the FHWA Rockfall Hazard Rating System to create a risk based approach to prioritize 400+ rock slopes along NJ highways that endanger our transportation infrastructure; and discover how NJDOT’s project delivery system is used to advance rock hazard mitigation projects from concept development to construction. The discussion includes specialized investigation methods and recent technologies for mitigation alternatives such as blasting and excavation, stabilization, protective systems, and constructability in extreme terrain.  
    **Moderator:**  James Boudreau, Geotechnical Engineer, Dewberry  
    **Speaker:**  Scott Deecq PE, Project Manager, NJ Department of Transportation  
    **Speaker:**  John Jamerson, Lead Geologist, NJ Department of Transportation  
    **Speaker:**  Amber Granger, Engineering Geologist, Haley & Aldrich

30.  **Americans With Disabilities Act (Part 1 of 2)**  
    (P)  (E)  
    **Room:**  Pageant (South Tower)  
    This workshop will take a look at understanding the ADA and what responsibilities transit has to make their services available and accessible to a wide variety of individuals with disabilities. This will include a discussion with examples of reasonable modifications necessary to make transit available, changes in the ADA since its inception, what is a direct threat, when and if services can be denied to a person with a disability and what level of assistance a transit driver is expected to provide.  
    **Presenter:**  Michael Noel, Noel Training & Consulting LLC

10:45 am - 11:55 am

31.  **Emerging Technologies**  
    (P)  (E)  
    **Room:**  Seaside (South Tower)  
    Emerging Technologies will require a rapid response in planning, design, construction and maintenance. This session would focus on NJDOT’s response to adapt to these changes and to develop procedures accordingly.  
    **Moderator:**  Wasif Mirza, Director, NJDOT, Division of Mobility Engineering  
    **Speaker:**  Thomas M. Brennan, Jr., P.E., PhD., Associate Professor of Civil Engineering, TCNJ  
    **Speaker:**  Peter J. Jim, Ph.D, M.S., Asst. Professor, Rutgers University Department of Civil and Environmental Engineering  
    **Speaker:**  Kelly McVeigh, Principal Engineer, NJDOT, Division of Mobility Engineering
Wednesday, April 17, 2019

(P) = Planning ACIP Credits  (E) = Engineering PDH Credits

10:45 am - 11:55 am  (Continued)

32.  How Capital Projects Improve PATH’s Customer Experience
(P)  Room: Parade (South Tower)
Over the past several years PATH has invested millions of dollars in capital projects that are significantly enhancing customer service. The first side of the new Harrison PATH station was opened on October 30, 2018 and provides weather-protected station entrances and modern vertical transportation. PATH also was recently recognized by the FRA as being PTC compliant, as part of a larger signal system update. In addition to improving safety, the new state of the art signal system will allow for closer train headways and provides riders with real time train arrival information. Come learn the details about these capital projects, upcoming phases, and ongoing customer service initiatives.

Moderator:  Rebecca Cassidy, General Manager, Board Unit, Office of the Secretary, PANYNJ
Speaker:  Mike Marino, Director, Rail Transit, PATH
Speaker:  Damian McShane, Program Director, PATH Capital Project Management Division
Speaker:  Jessica Mills, Manager, Customer Service & Marketing Programs, PATH

33.  South Jersey Traffic Signal Equipment Inventory GIS Web Application
(P) (E)  Room: Rolling Chair (South Tower)
Overview and demonstration of an online GIS application of a traffic signal equipment inventory. The asset inventory and user-friendly ArcGIS Online web app were developed by SJTPO with consultant support, and covers three counties in South Jersey.

Moderator:  Andrew Tracy, Program Manager, Capital Programming & Project Development, SJTPO
Speaker:  Colleen Richwall, Project Manager, Taylor Wiseman & Taylor
Speaker:  Bob Pliszka, Vice President, JMT Technology Group
Speaker:  Ali Majd, Assistant Engineer, Atlantic County

34.  The Gateway Program – Progress Through Partnership
(P) (E)  Room: Carousel (South Tower)
A discussion of the Hudson Tunnel and Portal North Bridge Projects with emphasis on the importance of inter-agency partnerships in expediting schedule, reducing cost and advancing these critical regional priorities.

Moderator:  Craig Schulz, Senior Manager, Amtrak Gateway Program Development Corp.
Speaker:  Stephen Sigmund, Chief of Outreach, Gateway Program Development Corp.
Speaker:  Ben Engle, Project Manager, Port Authority of NY/NJ
Speaker:  RJ Palladino, Senior Program Manager, NJ TRANSIT

35.  Federal Transportation Policy & Funding Outlook
(P)  Room: Reilly (Inside Exhibit Hall/South Tower)
What does the future hold for transportation policy and funding at the federal level? What are the latest transportation and infrastructure related developments in Congress and the Administration? This panel of national experts will provide some insights on these questions and others!

Moderator:  David Behrend, Deputy Executive Director, NJTPA
Speaker:  Rob Zucker, Principal, Winning Strategies Washington
Speaker:  Richard Perrin, Director Planning Services, Eastern U.S., T.Y. Lin International
Speaker:  Nancy Fox, Principal, Winning Strategies Washington
Speaker:  Alex Clegg, Program Specialist, Transportation Finance, American Association of State Highway and Transportation Officials
Wednesday, April 17, 2019

(P) = Planning ACIP Credits   (E) = Engineering PDH Credits

10:45 am - 11:55 am (Continued)

36. Positive Train Control: Report on NJ TRANSIT’s Progress to a December 31, 2020 Deadline
(P) Room: Salon 1 (North Tower)
Federal statute requires that NJ TRANSIT implement Positive Train Control (PTC) by December 31, 2020. The system, when activated, is capable of automatically controlling train speeds and movements, reducing the risk of accidents due to human error. NJ TRANSIT recently met a key interim deadline on December 31, 2018. This panel will catch you up on the federal requirements for commuter railroads and how NJ TRANSIT is progressing this critical safety initiative.

Moderator: Eric Daleo, Assistant Executive Director, Capital Planning & Programs, NJ TRANSIT
Speaker: Robin Persad, Chief, Project Management (PTC), NJ TRANSIT
Speaker: Vyomesh Shah, Senior Director, Capital Projects Management, NJ TRANSIT
Speaker: Edward Baksa, Deputy General Manager, Equipment, NJ TRANSIT

37. Americans With Disabilities Act (Part 2 of 2)
(P) (E) Room: Pageant (South Tower)
This workshop will look at the most common challenges associated with providing safe services to individuals with disabilities. This will include safe boarding, on-board securement of mobility devices, transfer of passengers to a seats, riding the lift by standees, service animals versus comfort animals, and when a passenger should be recommended for medical transport.

Presenter: Michael Noel, Noel Training & Consulting LLC

12:00 pm - 1:15 pm Sumptuous Luncheon Buffet (Grand Ballroom, Salon 2, 3 & 4 - North Tower)

Opening Remarks: Frank Reilly, Conference Chairman
Master of Ceremonies: Anthony Attanasio, President, Hawk Strategies

Remarks by: Diane Gutierrez-Scaccetti, Commissioner, NJ Department of Transportation
Kevin Corbett, Executive Director, NJ TRANSIT
Alex Herrgott, Executive Director, Federal Permitting Improvement Steering Council, Washington DC
John Keller, Executive Director, NJ Turnpike Authority
Steve Plate, Chief of Major Projects, Port Authority of NY&NJ

(P) = Planning ACIP Credits  (E) = Engineering PDH Credits

**Exhibit Hall Open all afternoon until 5:00pm. Reopens at 6:15 pm for Networking Reception**

1:30 pm - 2:40 pm

38. **A View From the Top: Challenges and Opportunities Facing NJ's Mass Transit, Tolling and Bi-State Authorities**  
(P)  
Room: Salon 1 (North Tower)

This panel will focus on NJ's largest tolling, mass transit and bi-state agencies. We will focus on the challenges they face, the opportunities they see in the short and long term and how their agencies interact with one another both operationally and with their individual (yet at times inextricably connected) capital programs.

Moderator: Anthony Attanasio, President, Hawk Strategies  
Speaker: Kevin Corbett, Executive Director, NJ TRANSIT  
Speaker: John Keller, Executive Director, NJ Turnpike Authority  
Speaker: Steve Plate, Chief of Major Projects, PANYNJ

39. **PANYNJ Engineering-Architecture Design: Attention to State of Good Repair**  
(P)  
(E)  
Room: Carousel (South Tower)

Learn about: replacement of outdated electrical infrastructure at JFK Airport, including electrical substations and power distribution systems; major works programs at Airports produced from the Pavement Management System; and wharf replacement studies developing designs to systematically upgrade critical infrastructure in the NY Harbor. These programs speak to PANYNJ continuing efficient customer service, maintaining facilities in a state of good repair, while ensuring safety, security and resiliency, one of three guiding principles of the 2017-2026 Capital Plan.

Moderator: Tony Marino LEED AP, Deputy Chief of Design, PANYNJ  
Speaker: Alex Spivak PE, Assistant Electrical Engineering Chief, PANYNJ  
Speaker: Noah Romanowski PE, Principal Civil Engineer, PANYNJ  
Speaker: Felipe Lorca PE, Senior Structural Engineer, PANYNJ

40. **50 Years Later: Is This NEPA's Mid-Life Crisis?**  
(P)  
(E)  
Room: Rolling Chair (South Tower)

Happy 50th Birthday NEPA! Welcome to your mid-life crisis. Is a $1billion National Infrastructure Program possible without significant improvements to streamline the National Environmental Policy Act (NEPA)? New federal regulations have recently been enacted in an effort to expedite environmental and regulatory reviews and update NEPA. This diverse panel will challenge a private sector perspective that infrastructure funding is secondary to regulatory reform, and discuss the costs, benefits, and realistic options to streamlining NEPA.

Moderator: Joann Papageorgis, Dept / Senior Project Manager, Dewberry Engineers  
Speaker: Dana Hecht, Program Director, Major Capital Projects, The Port Authority of NY & NJ  
Speaker: Jane Herndon, Manager, Environmental Programs, Aviation Technical Services, The Port Authority of NY & NJ  
Speaker: Lawrence Smith, Senior Planner, Dewberry Engineers
1:30 pm - 2:40 pm (Continued)

41. "E" is for Equity: Centering Equity in Transportation Planning and Vision Zero
(P) (E) Room: Seaside (South Tower)

Equity is increasingly seen as a critical component of effective transportation safety planning, with equal stature to the traditional "E's" of Engineering, Enforcement, and Education (among others). This panel will discuss a variety of local approaches to ensuring that equity analysis and community engagement are incorporated into transportation planning, especially around safety initiatives like Vision Zero. Panelists will present on diverse topics including how Community Impact Assessment, Environmental Justice and Public Involvement can help address equity in transportation planning; a regional analysis of crash frequency and Environmental Justice populations and its implications for Vision Zero implementation; and the equity considerations built into the new Model Green & Complete Streets Policy for New Jersey.

Moderator: Charles Brown, Senior Researcher, Alan M. Voorhees Transportation Center
Speaker: Marco Gorini, Transportation Planner, Delaware Valley Regional Planning Commission
Speaker: Veronica Murphy, Administrative Analyst, NJDOT
Speaker: Janna Chernetz, Deputy Director, Tri-State Transportation Campaign

42. The Future is Now! Far-Reaching Changes in Technology and Transportation
(P) (E) Room: Reilly (Inside Exhibit Hall/South Tower)

Innovations in transportation and related technology are transforming the world! Autonomous vehicles, location-based services, ride hailing, and other evolving and/or emerging “game-changers,” that once seemed like dreams of the future, today have far-reaching implications for how we live, work, shop, and get around. This session offers an insightful discussion about those implications from perspectives ranging from safety and security to demographics and transportation access among other critical issues.

Moderator: Mary D. Ameen, Executive Director, NJTPA
Speaker: Dr. Mitchell D. Erickson, Ph.D., Consultant, Science Advisor, U.S. Department of Homeland Security (Retired)
Speaker: Dr. Alain L. Kornhauser, Ph.D., Prof. of Operations Research and Financial Engineering, Princeton University
Speaker: Dr. James W. Hughes, Ph.D., University Professor and Dean Emeritus, Edward J. Bloustein School of Planning and Public Policy - Rutgers, the State University of New Jersey

43. The Public are People too – Communicating for Authentic Engagement!
(P) (E) Room: Parade (South Tower)

Outreach and communication are critical components of any project since they can set the groundwork for establishing connections with the public on projects and policies that affect them directly or indirectly. Some challenges that planners and decision makers face is translating complex information into something meaningful and understandable for the public. This session will prepare planners for authentic outreach, not just checking a box during the planning process but forming a strategic plan for how to engage and communicate with the public so they truly feel part of the decision making process. Panelists will also review successful outreach and communication techniques, and methods that have proven to be most effective. In addition, the session will discuss how technology has changed both expectations as well as modes of communication, and how planners can adapt to these changes to be effective and meet these expectations using current techniques and methodologies including visual and social media.

Moderator & Speaker: Ranjit Walia PP/AICP, Principal - Civic Eye Collaborative
Speaker: Trish Sanchez, Public Relations and Outreach Specialist, VTC

44. Understanding Dialysis Transportation: A Community Transportation and Paratransit Discussion
(P) Room: Pageant (South Tower)

This workshop will be a roundtable discussion with community transportation and paratransit directors, administrators and operators discussing the increasing demand required for providing transportation to people needing dialysis care. This purposely unformatted session can take the discussion in any direction.

4:00 pm 5:00 pm

45. The Transportation Trust Fund 2024 - What's Next? (Part 1 of 2)  
(P)  
Room: Salon 1 (North Tower)

The workshop will provide an overview of the Transportation Trust Fund as re-authorized by P.L. 2016, c. 56 that created a $12 billion Transportation capital program through FY 2024 and analysis of what needs to happen in the next 5 years to ensure the continuity of funding for capital programs.

Moderator: John Wisniewski Esq, Former Assembly Transportation Chairman and Managing Member, Wisniewski & Associates, LLC
Speaker: Robert Briant, Jr., CEO of Utility & Transportation Contractors Association and Public Member of the Transportation Trust Fund Authority
Speaker: Kris Kolluri, Former NJDOT Commissioner and CEO Coopers Ferry Partnership - confirmed
Speaker: Dr. James W. Hughes, Ph.D., University Professor and Dean Emeritus, Edward J. Bloustein School of Planning and Public Policy - Rutgers, the State University of New Jersey
Speaker: Stephen Dilts, Former NJDOT Commissioner and Senior Vice President

46. Upholding the Paris Climate Agreement: PANYNJ GHG Reduction Commitments and Strategy  
(P)  
Room: Carousel (South Tower)

The PANYNJ was the first public transportation agency in the United States to embrace the Paris Climate Agreement, setting aggressive interim greenhouse gas (GHG) reduction targets that call for a 35-percent reduction by 2025 and reaffirming the agency’s commitment to an 80-percent reduction by 2050. Come learn about the initiatives the agency is implementing to meet these goals and help green the region.

Moderator: Ahmed Ismail, AICP, Principal Transportation Planner, PANYNJ
Speaker: Christine Weydig, Director, Office of Environmental and Energy Programs, PANYNJ
Wednesday, April 17, 2019

4:00 pm - 5:00 pm (Continued)

**47. Coming to Your Terminal or Station Soon: New Buses and Rail Rolling Stock for NJ TRANSIT**

(P) Room: Reilly (Inside Exhibit Hall/South Tower)

NJ TRANSIT recently entered into a $669 million contract for the purchase of new Multilevel III vehicles. This panel examines “what is to come” in the Multilevel III purchase as well as other purchases underway for new Cruiser and Articulated Buses. The panel will also cover how NJ TRANSIT is preparing for electric buses in the future.

**Moderator:** Megan Strickland, Chief, Capital Compliance, Budget & Administration, NJ TRANSIT  
**Speaker:** David Carter, Senior Director, Equipment Design & Engineering, NJ TRANSIT  
**Speaker:** Ed Gacsi, Director, Equipment Design & Engineering, NJ TRANSIT  
**Speaker:** Chris Moog, Director, Equipment Design & Engineering, NJ TRANSIT  
**Speaker:** Mike Kilcoyne, VP/GM Bus Operations, NJ TRANSIT

**48. Goethals Bridge a P3 Success Story**

(P) (E) Room: Parade (South Tower)

The design team for the recently completed Goethals Bridge Relocation Project will present an overview of the project designers key role in delivering a complex project successfully within the framework of a P3 contract.

**Speaker:** Tom Spoth P.E., Vice President, Parsons  
**Speaker:** Seth Condell P.E., NY/NJ Regional Bridge Practice Lead, Parsons  
**Speaker:** Nigel Newton P.E., Vice President, NJ Area Manager, Parsons

**49. Emerging Topics in Environmental Permitting for Bridge Projects**

(P) (E) Room: Rolling Chair (South Tower)

The discussion will include challenges faced when obtaining authorizations for geotechnical borings, as well as State and Federal considerations pertaining to fisheries resources, and protected freshwater mussel and bat species. The process for obtaining U.S. Army Corps of Engineers authorization under Section 408, "Civil Works Projects", will also be discussed.

**Moderator & Speaker:** Bill Romaine, Senior Project Manager, Amy S. Greene Environmental Consultants, Inc.  
**Speaker:** Sue Quackenbush, Senior Project Manager, Amy S. Greene Environmental Consultants, Inc.

**50. Recruiting a Sustainable Driver Workforce - Part 1 (Part 1 of 2)**

(P) Room: Pageant (South Tower)

What are transit leaders doing to address the current driver shortage? Organizational awareness, executive support and understanding is central to any effort in addressing driver shortages. Creating a workplace where drivers relate to the values and vision of your organization is essential throughout the sourcing, selection and hiring process. This session highlights proven driver recruitment techniques while including the rural and small city perspective too.

**Presenter:** Josh Baker, Amtran, Altoona, PA  
**Presenter:** Michael Noel, Noel Training & Consulting LLC
Wednesday, April 17, 2019

(P) = Planning ACIP Credits      (E) = Engineering PDH Credits

5:00 pm - 6:00 pm

51. The Transportation Trust Fund 2024 - What's Next? (Part 2 of 2)
(P) Room: Salon 1 (North Tower)
The workshop will provide an overview of the Transportation Trust Fund as re-authorized by P.L. 2016, c. 56 that created a $12 billion Transportation capital program through FY 2024 and analysis of what needs to happen in the next 5 years to ensure the continuity of funding for capital programs.
Moderator: John Wisniewski Esq, Former Assembly Transportation Chairman and Managing Member, Wisniewski & Associates, LLC
Speaker: Robert Briant, Jr., CEO of Utility & Transportation Contractors Association and Public Member of the Transportation Trust Fund Authority
Speaker: Kris Kolluri, Former NJDOT Commissioner and CEO Coopers Ferry Partnership - confirmed
Speaker: Dr. James W. Hughes, Ph.D., University Professor and Dean Emeritus, Edward J. Bloustein School of Planning and Public Policy - Rutgers, the State University of New Jersey
Speaker: Stephen Dilts, Former NJDOT Commissioner and Senior Vice President

52. Positive Train Control: Are We There Yet?
(P) Room: Reilly (Inside Exhibit Hall/South Tower)
Positive Train Control (PTC) was first authorized by Congress in 2008. Why has installation taken so long?
Moderator: Steve Sullivan, Managing Director, R.L. Banks and Associates
Speaker: Chris Jagodzinski, AVP Operations, Amtrak
Speaker: William Everett, Manager, Business Development, Collins Aerospace

53. Constructing a Strong Career: Advice from Females in the Field
(P) Room: Carousel (South Tower)
From aviation and bridges to highways and funding, Hill International’s panel of influential female field professionals has a diverse blend of experience to share with peers of all levels. Bridget Day, PE, Megan Clayton, PE, and Keiva Rodrigues, PMP, have 60 years of combined AEC experience, each progressing from intern to leadership positions. This straightforward discussion will provide perspectives gained from working on construction sites for dozens of clients across multiple market sectors.
Speaker: Bridget Day, P.E., Senior Project Manager, Hill International
Speaker: Megan Syrnick, P.E., Project Manager, Hill International
Speaker: Keiva Rodrigues, CCM, PMP, Project Manager, Hill International

54. Engineering our Future: The Importance of Student Engagement
(P) Room: Rolling Chair (South Tower)
The panel will include both public and private industry professionals along with students and a young engineer. The main purpose of the session is to encourage engineering students to pursue careers in civil engineering and will focus on such things as the development of student chapters and how seasoned engineers can get involved in encouraging students and younger engineers to pursue careers in civil engineering.
Moderator: Dana Hecht, Program Director, Major Capital Projects/World Trade Center Construction, PANYNJ
Speaker: Richard Grubb, Vice President, RGA, Inc.
Speaker: Polina Knaster, P.E., PMP, Area Client Development Leader, HDR, Inc.
Speaker: Ed Panuska, Vice President of Project Development, George Harms Construction Company
Speaker: Godfrey Joyner, E.I.T, Staff Engineer – Highway, KMA Consulting Engineers, Inc., First Pres. of ASHE Rowan
Speaker: Javuan Linton, Student, Mercer County Community College, President of ASHE MCCC
Wednesday, April 17, 2019

(P) = Planning ACIP Credits  (E) = Engineering PDH Credits

5:00 pm - 6:00 pm  (Continued)

55. Cape May County Bicycle Network – Completing the Streets through County/ Municipal Collaboration
(Room: Parade (South Tower))
Cape May County is Completing their Streets through everything from restriping after a paving project to full roadway reconstruction with or without side paths. Come see how you can follow their lead in maximizing accommodations while leveraging partnerships to cost share.

Moderator: Alan Huff, Program Manager – Safety Initiatives & Public Outreach, SJTPO
Speaker: Leslie Gimeno, Planning Director, County of Cape May
Speaker: Paul Dietrich, Municipal Engineer, Upper Township
Speaker: Michael Dannemiller, Principal Engineer, NV5, Inc.

56. Bus Rapid Transit (BRT) Applications and Case Studies
(Room: Seaside (South Tower))
Recent case studies and experiences from BRT or rapid bus projects implemented along heavily traveled corridors in urban areas. Case studies will include the Roosevelt Boulevard Direct Bus in Philadelphia and the Woodhaven/ Cross Bay Boulevards Select Bus Service in New York City.

Moderator: Marco Gorini, Transportation Planner, Delaware Valley Regional Planning Commission (DVRPC)
Speaker: Amy Bernknopf, Assistant Manager, Transit Programs, Delaware Valley Regional Planning Commission (DVRPC)
Speaker: Keith Hartington, Principal Transportation Engineer, Delaware Valley Regional Planning Commission (DVRPC)
Speaker: Eric Swenson, Senior Transportation Engineer, Arup

57. Developing and Retaining a Sustainable Driver Workforce - (Part 2 of 2)
(Room: Pageant (South Tower))
We know that drivers are the front-line representatives for our organization. Creating a workplace that drivers find motivating and enriching is perhaps the most effective and low-cost retention strategy that you can adopt. It's essential to commit resources to employee development and recognition to demonstrate to employees that they are valued by your organization. This session highlights insights and examples from successful programs from the rural and small urban perspectives.

Presenter: Josh Baker, Amtran, Altoona, PA
Presenter: Michael Noel, Noel Training & Consulting LLC

11:15 am - 12:15 pm

59. **The Impact of Amazon Fulfillment Centers on Traffic**  
(P) (E)  Room: Carousel (South Tower)  
Amazon and its Fulfillment Centers have revolutionized retail shopping. What has been the impact of these centers been since they have large numbers of trucks going in and out of the centers on local roads plus the employees cars and their need for parking?  
Moderator: David Anderson, Manager, Office of Transportation and Corridor Studies, DVRPC  
Speaker: John S. Ward, Operations Manager, Amazon  
Speaker: Joseph Brickley, Burlington County NJ Engineer

60. **Smart New Jersey Through Digital Connections**  
(P) (E)  Room: Parade (South Tower)  
As technologies evolve, there is a significant reliance and dependence on digital portals and interfaces. This Session will focus on how NJDOT is adapting to this new technology.  
Moderator: Wasif Mirza, Director, NJDOT, Division of Mobility Engineering  
Speaker: James Hogan, P.E., Director, Business Development, Advantage Engineering Associates (AEA)  
Speaker: Anthony L. Bartello, P.E., Associate Vice President, HNTB Corporation  
Speaker: Jeffrey Arch, Senior Project Manager, HNTB Corporation

61. **Innovative Data Applications in Transportation Planning**  
(P) (E)  Room: Rolling Chair (South Tower)  
This session will emphasize the use of data driven planning approaches and will cover a variety of applications including the use of Location Based Service (LBS) data in developing a marketing plan for the NJ Scenic Byways, innovative applications of the General Transit Feed Specification (GTFS) data, and ways of presenting freight data for stakeholder engagement through freight planning case studies from across the country.  
Moderator: Chris Titze, Senior Associate, Cambridge Systematics  
Speaker: Nikhil Puri, Regional Manager, Cambridge Systematics  
Speaker: Elizabeth Harper, EA Harper Consulting  
Speaker: Lisa Destro, Senior Associate, Cambridge Systematics

62. **Morris Canal & 911 Greenway - Stitching together Northern NJ's Urban Trail Network**  
(P) (E)  Room: Seaside (South Tower)  
From the Historic Morris Canal's developing statewide Greenway to the September 11th National Memorial Trail that will connect all three crash sites - NJ has great trail segments, that when stitched together, can make a beautiful quilt for non-motorized transportation. Come participate in an update on the trails (like the Essex - Hudson Connector) that are connecting people and jobs throughout NJ.  
Moderator: Elise Bremer-Nei, Office of Bicycle and Pedestrian Programs, NJDOT  
Speaker: Cyndi Steiner, Executive Director, New Jersey Bike Walk Coalition  
Speaker: Michael Dannemiller, Principal Engineer, NV5, Inc.

(P) = Planning ACIP Credits   (E) = Engineering PDH Credits

11:15 am - 12:15 pm (Continued)

63. Testifying Skills from Experts (AICP Planning Legal) - Part 1 of 2
This training workshop satisfies the 2 hours of legal credits required for AICP renewal.
(P) (E)  Room:  Salons 1 (North Tower)
Like most things in life, testifying and answering questions as a witness before planning and zoning boards, and learning to become a more effective witness for your client at litigation depositions, takes practice. Janine G. Bauer, Esq. will help you understand, in transportation and land use planning contexts, through role play, video and Q/A, how to improve your skills, while you earn planning and/or legal continuing education credit.
Certified Presenter:  Janine G. Bauer, Esq., Szaferman Lakind, PC  
Certified Presenter:  John Nawn P.E., Fleisher Forensics  
Certified Presenter:  Kevin O’Brien, P.P., AICP, Shamrock Enterprises, Ltd.

64. Stress Management and Avoiding Conflict - Part 1 of 2
(P)  Room:  Pageant (South Tower)
This session provides an overview of how to control yourself first and then avoid conflict with co-workers, customers, and the public as well as proven techniques for managing stress in both professional and personal life. The program will emphasize the importance of caring for your physical, mental, and emotional well-being.
Presenter:  Michael Noel, Noel Training & Consulting LLC

12:15 pm – 1:15 pm

65. Testifying Skills from Experts (AICP Planning Legal) - Part 2 of 2
This training workshop satisfies the 2 hours of legal credits required for AICP renewal.
