GO *Berlin*
DAYS
JANUARY 29-30, 2019

SPONSORSHIP PROSPECTUS

The idea behind it

The programming language **Go is becoming increasingly important for software development** with major cutting-edge technologies, like Docker and Kubernetes, being written in Go.
All major cities in the DACH region have a Golang community to network and cooperate with each other. **We want to support that and built a further platform** on which the community can exchange ideas and share their knowledge, a cornerstone of open source development.

Help us and **be part of the first ever edition of GoDays in Berlin. Together we can help the community** to engage with each other and facilitate in-depth technical discussions while offering plenty of opportunities to network.

Outline

GoDays is a two day conference focused on connecting the Golang community. In numerous technical talks and hands-on workshops, Golang experts will exchange ideas and learn from each other.

/ 250 tickets
/ 4 half-day workshops
/ 1 day of in-depth talks on 2 stages
/ unique venue in the heart of Berlin
/ networking breaks
/ afterparty

Tuesday, January 29
Workshops & Meetup

Wednesday, January 30
Conference & Evening Event

Location

We decided to hold GoDays at the **Factory in Berlin Kreuzberg,** a business club for startups and entrepreneurs.

This amazing venue is the ideal environment for our conference:

- Berlin has by the far the **largest Go community** in the DACH region
- The Factory is **at the heart of the city's buzzing startup scene** and plays host to its technological decision-makers

Join us in this creative and engaging space to inspire the innovations of tomorrow!
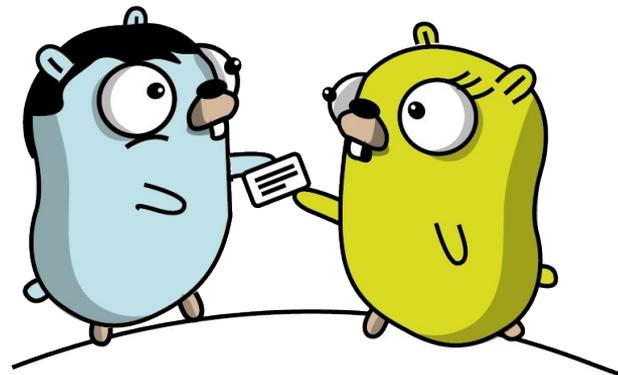

Partnership

We believe GoDays is the ideal catalyst to create a central platform for and foster the expansion of the Go community in the DACH region.

Become part of the crew and let's work together to organize a great conference with amazing workshops and talks.

Your benefits:

/ Connect with hundreds of highly skilled developers
/ Support the Go community and help us build a bigger platform
/ Position your company at the forefront of the Go revolution
