

# KIDS UNDER CONSTRUCTION

## SUMMER 2019 GROUP WORKSHOP SCHEDULE

	<b>SESSION A</b> <b>9:00A - 11:00A</b>	<b>SESSION B</b> <b>11:30A - 1:30P</b>	<b>SESSION C</b> <b>2:00P - 4:00P</b>
<b>WEEK 1</b> <b>6/17 - 6/20</b>	Fun Phonics Grades 1-2	Jan Brett Grades 4-5	Storybook Steam Grades K-5
<b>WEEK 2</b> <b>6/24 - 6/27</b>	Letters & Sounds Grades TK-K	Storybook STEAM Grades K-5	Comprehension Construction Grades 1-2
<b>WEEK 3</b> <b>7/1 - 7/3</b>	Fractions, Decimals & Percents Grades 3-5	Sports Heroes Grades K-5	Unicorn Academy Grades K-5
<b>WEEK 4</b> <b>7/8 - 7/11</b>	Camp Kinder Grades TK-K	Ooblek Laboratory Grades K-5	Math Potholes Grades 3-5
<b>WEEK 5</b> <b>7/15 - 7/18</b>	Comprehension Construction Grades 1-2	Spy Institute Grades 1-5	Kitchen Science Grades 1-5
<b>WEEK 6</b> <b>7/22 - 7/25</b>	Math Potholes Grades 1-2	Doreen Cronin Grades K-3	Comprehension Construction Grades 3-5
<b>WEEK 7</b> <b>7/29 - 8/1</b>	Comprehension Construction Grades 3-5	Dinosaur Dig Grades 1-5	Storybook STEAM Grades K-5
<b>WEEK 8</b> <b>8/5 - 8/8</b>	Math Potholes Grades 3-5	Gail Gibbons Grades K-5	Math Potholes Grades 1-2
<b>WEEK 9</b> <b>8/12 - 8/15</b>	Monster Math Facts Grades 1-2	Games Tournament Grades 1-5	Algebra Bootcamp Grades 7-9
<b>WEEK 10</b> <b>8/19 - 8/22</b>	Monster Math Facts Grades 3-5	Space Explorers Grades K-5	Architect Academy Grades 3-5

### A FEW NOTES

Each workshop features a variety of themed activities that are sure to keep your child's mind actively engaged and their curiosity peaked. Students will enjoy a mid-workshop snack and bring home something to share. We include academics and fun in every workshop. The workshops are designed for students enrolling in designated grade levels in the fall, but if you feel that a workshop interests your child, feel free to enroll in a workshop outside of their grade level. Workshops with less than three enrolled students are subject to cancellation and a full refund. Space is limited as workshop enrollment is capped at 8 students per workshop. Workshop descriptions on back.

Tuition for each 4-day workshop is \$195 – for week 3, tuition is \$145 (no workshops held 7/4). Save \$10 per workshop by enrolling with a buddy! Your tuition includes all materials and a light snack.

## **WORKSHOP DESCRIPTIONS**

**FUN PHONICS:** Practice your phonics skills with games and hands-on activities. Open to students entering grades 1-2 in the fall.

**AUTHOR STUDY: JAN BRETT:** Explore the animals of the tropical rainforest as inspired by the book The Umbrella. Open to students in grades 4-5 in the fall.

**STORYBOOK STEAM:** Explore science, technology, engineering, art, and math inspired by your favorite storybooks. Open to students entering grades K-5 in the fall.

**LETTERS & SOUNDS:** Rhyme, blend, and play with sounds as we learn letter formation poems and play sound games. Open to students entering grades TK-K in the fall.

**COMPREHENSION CONSTRUCTION:** Construct your reading comprehension with Legos, dominos, cup towers, clothespins, and popsicle sticks as you become a more fluent reader to help prepare for the common core reading strategies next year. Enroll your student in the workshop according to their reading benchmark or guided reading levels.

**FRACTIONS, DECIMALS & PERCENTS:** Fly a fraction kite, calculate tax and tip at the Decimal Diner, and determine percents using your favorite candy to build a strong foundation of what fractions, decimals, and percent are and how they're used. Open to students entering grades 3-5 in the fall.

**SPORTS HEROES:** Discover the struggles and triumphs of some of America's most well-loved sports heroes that were courageous, served out country, gave back to their communities, and fought for equality. Open to students entering grades K-5 in the fall.

**UNICORN ACADEMY:** Make your own unicorn slime, learn to draw unicorns, and create a unicorn dreamcatcher to take home. Open to students in grades K-5 in the fall.

**CAMP KINDER:** Come find out what kindergarten is all about to help you thrive throughout your first year at "the big school". Open to students entering grade K in the fall.

**OOBLEK LABORATORY:** Make your own ooblek, conduct experiments with it, and investigate the odd way it changes from a solid to a liquid as inspired by Dr. Seuss's Bartholomew and the Ooblek. Open to students entering grades K-5 in the fall.

**MATH POTHOLES:** Review those common core math skills from last year work ahead on the potholes that kids get stuck in coming up in the fall. Enroll your student in the workshop according to their grade level in the fall.

**SPY INSTITUTE:** Create your spy name, solve top secret spy mysteries, make a spy decoder, and build Morse code bracelets. Open to students entering grades 1-5 in the fall.

**KITCHEN SCIENCE:** Uncover the explosive, color-changing, and dynamic experiments that are hiding in your kitchen. Open to students entering grades K-5 in the fall.

**AUTHOR STUDY: DOREEN CRONIN:** See the world from a bug's perspective as inspired by the books Diary of a Spider, Diary of a Fly, and Diary of a Worm. Open to students entering grades K-3 in the fall.

**DINOSAUR DIG:** Excavate dinosaur bones, create fossils to share with your friends, and earn your paleontology certificate. Open to students entering grades 1-5 in the fall.

**AUTHOR STUDY: GAIL GIBBONS:** Dive into the world of non-fiction text to learn more about our world as inspired by the books The Moon Book, The Pumpkin Book, Apples, and How A House Is Built. Open to students entering grades K-5 in the fall.

**MONSTER MATH FACTS:** Practice those math facts to help your fact fluency so you're ready for those timed tests in the fall. Enroll your student in the workshop according to their grade level and/or needs (students work on addition/subtraction in grades K-2 and on multiplication/division in grades 3-5).

**GAMES TOURNAMENT:** Unlock the game cabinet and play until your heart is content. Join us for a Don't Break the Ice tournament, a Pizza Fractions playoff, and math Jenga. Open to students entering grades K-5 in the fall.

**ALGEBRA BOOTCAMP:** Preview common core concepts covered during the first few months of school to start the school year ahead of your classmates. Open to students entering grades 7-9 in the fall.

**SPACE EXPLORERS:** Discover what's in our galaxy and what makes up our Earth, stars, and planets. Open to students entering grades K-5 in the fall.

**ARCHITECT ACADEMY:** Learn about an architect's job and build your own dream house. Open to students entering grades 3-5 in the fall.
