

## **Rosseau Ranked #1 Global Event-Driven Hedge Fund for 2006**

Tuesday January 30, 8:00 am ET

TORONTO, Jan. 30, 2007 /CNW/ - Rosseau Limited Partnership's 121.7% return earned it the #1 ranking globally in the Event-Driven category by the Lipper/TASS Database for 2006. The fund's offshore equivalent, G-10 Rosseau Special Situations Fund, took the #2 spot in 2006 with its 112.5% return. Globally, across all strategies, Rosseau Asset Management's two funds ranked #4 and #5 overall.

Warren Irwin, founder and portfolio manager, is pleased with Rosseau's extraordinary achievements in 2006, but is especially proud of Rosseau LP's 34.7% annual compound rate of return over eight years. "In 2006 we earned a lot of attention with our triple digit returns, but the real story is our ability to compound our investors' money over the long-term," said Irwin. In 2006, special situations in the resource sector accounted for the bulk of the returns, but over the long-term, Rosseau has made money in a wide variety of industry sectors using many different investment strategies.

### About Rosseau:

Rosseau Asset Management Ltd. ([www.rosseau-asset.com](http://www.rosseau-asset.com)) is a Toronto-based money management firm that caters to high net worth and institutional investors globally. Rosseau's objective is to maximize long-term capital appreciation through North American special situation and event driven investing, with an emphasis on Canada. A core competency in fundamental research allows Rosseau to identify opportunities in corporate restructurings, turnarounds, bankruptcies, unique growth opportunities and special situations. Assets under management are approximately \$200 million.
