

## EXPERTISE

Usui Reiki II Practitioner, Intuitive

## INTRODUCTION

I have begun my journey as a young adult doing the greatest work I can imagine, being a healer. It had all started while I was still in Heaven, before I was born, when I remember being told that I was to be a healer. I have spent my whole life getting through my own diagnosis of Autism and finding a future for me in a way that realizes my purpose. I have always kept moving myself deeper and deeper in the “vortexes”, or dimensions, learning more about my own spirituality and purpose.

As time goes by, I have enhanced my healing ability and I was able to decrease my Autism symptoms. And now, I do group healings, one-on-one healing sessions, and even healing with animals and/or people through something called telepathy healing or distant healing.

Here are a few things about me that I would want to share: I love Italian Renaissance culture, art and music. I sometimes enjoy learning about and/or talking about history. I always wished that the entire world would be inclined to send healing to each other, creating peace, not violence. And, I have always had a deep respect for ancient traditions and beliefs.

## SERVICES OFFERED

- Energy Healing
- Animal Healing
- Group Healing
