

1.7 Do Now

Name: _____

Predict the sign

Predict then circle the sign (positive or negative) of the sum of the integer expressions below.

The sum will be:

$8 + (-1)$ positive or negative?

$-4 + 2$ positive or negative?

$-7 + (-6)$ positive or negative?

$-5 + (-9)$ positive or negative?

$6 + (-5)$ positive or negative?

$-2 + 5$ positive or negative?

$8 + 11$ positive or negative?

$-12 + 3$ positive or negative?

$0 + (-3)$ positive or negative?

$1 + (-8)$ positive or negative?

Please write a general rule (a rule that works in all cases) for determining whether the sum of a pair of integers will be positive or negative.
