The subtitle of this novel is *The adventures of Maca Akcentijević*. The play is filled with uncensored scenes of rough sex, but this is not pornographic literature. It consists of short segments, many of which are only a few lines long. The author named these segments 'poems', giving each one a separate title.

Moments of Joy has been translated into French, German, Spanish, Italian, Russian and Macedonian.

There were two editions of this novel in Serbia, and four in France.

An unusual work full of brilliant thoughts on life, love and orgasm. The short chapters depict the sexual adventures of a Slavic Lolita, a thousand times more lascivious and entertaining than her older Nabokovesque sister.

Fabrice Gignault, Marie - Claire

The book is permeated with animalism, though it is also at times poetic and surreal.

And when the reader finally feels that nothing can come as a surprise anymore, the author manages to outdo himself.

Eric Paquin, Voir

Tired of everything? You have seen nothing yet. You still haven't enjoyed the fantasy of this light-read book. It is unlike anything else in classic erotic literature. The more you read, the more entertained you are... Completely surreal.

Danielle Laurin, le Devoir
