Public Announcement and Travel Advisory

In an address to the nation on 24th March 2020, Honourable Dr Roosevelt Skerrit, Prime Minister of the Commonwealth of Dominica informed that there has been seven (7) confirmed cases of the Corona Virus in Dominica. As a result, Dominica is now at Level 3 in its planned response to COVID-19.

Dominican nationals and the general public are advised to take note of the following travel advisory:

- **Effective Thursday 26th March 2020** – all commercial air and sea entry for non-Dominican nationals is suspended until further notice
- **Effective Saturday 28th March 2020** – all entry to and from Dominica for all travellers including Dominican nationals and residents will be suspended until further notice.

Dominicans who are abroad and wishing to return home should act now so that they arrive in Dominica before the above suspension takes effect. Dominicans and visitors in Dominica who wish to travel out of Dominica are advised to schedule travel immediately and within the travel orders as stated above.

During this unprecedented global health concern over COVID-19, the High Commission encourages you to continue to keep yourself, your families and your communities safe, and to continue to follow official health and travel advice.

Janet Charles
ACTING HIGH COMMISSIONER
