Kampala

Okaldyang Foundation and Village Power partnered together to improve access to electricity through catalysing the uptake of Solar Use in Loro Sub County, and Oyam District.

As our focus on the Oyam District gains traction, we have now completed four community launches of our engagement with the Oyam Community. We have been in Omoloo Trading Center, Acaidebbe Trading Center, and Anotoocao village, Adigo Parish, over the last three Sundays and have empowered 75 People in those villages. We welcome these happy new customers to the Village Power family and are thrilled that we are already seeing them refer their own families to Village Powers to spread the light in Oyam. We visited Aber Trading Centre on Wednesday the 28th of November and are gearing up to visit Dog-apio Trading Centre (2.12.12), Omoloo Trading Centre (9.12.2018) and Oyam Town right before Christmas.
