These bingo cards must not be uploaded to another website, reproduced or re-distributed in any format unless it is a thumbnail image linking back to the lego party page on [howtocookthat.net](http://howtocookthat.net)

This page has your call cards, print and cut into individual squares.

The following pages are 24 different bingo cards. Print as many as you need for your guests.

You will also need a bowl of lego 2x2 bricks for the kids to cover each picture as it is called.

Play just like regular bingo - draw out one picture at a time and call out what it is. Wait for them to find it and cover it up. Continue until one child has 5 in a row up, down or diagonally and calls out **LEGO!**
