Instructions	Before leaving, members may choose one prize, unless they have a watermelon sticker, then they may choose 2 prizes.	<ol style="list-style-type: none"> 1. Using the black sharpies, add seeds to the outside of your Ziploc bag. 2. Squeeze about 4 ounces of glue into a glass bowl. 3. Mix in about 4 ounces warm water 4. Add red food coloring, if desired to make it look like a watermelon. 5. Mix 1 teaspoon of Borax into 1/2 cup of water, and slowly add the solution to the glue mixture. 6. Stir in the Borax solution until the slime started to come together. We did not use all of the Borax solution. 7. Knead the slime. At first it will be really wet and goeey, then stringy and sloppy, until finally it will hold together. 			the red dodgeball holds the power of the medic. Save "out" players, but don't get hit if you have the red ball, because your whole team will be out!

Watermelon
Slime

Use shapies to add
seeds to the outside
of your bag.

Separate 1 ounce of
glue into *glue*

level. Mix

in 1 ounce warm
water. Add red food
coloring. Mix 1-4

teaspoons of Borax

into 1-5 cup of
water, and slowly

add the solution to
the *glue* mixture.

Stir in the Borax
solution until the
slime comes

together. Keyword:
