DEAR CUSTOMERS,

As the new owner of Funke Trap Tags and Supplies, I am very excited to help you fulfill all of your trapping needs. Our goal at Funke is to provide great quality products at fair prices and excellent customer service that exceeds your expectations.

I wanted to share some information about me and my trapping background. I have lived in central Iowa my entire life, grew up on a farm and been a trapper since I was in my teens. I got started in the trapping business about 6 years ago, as a hobby than a business. This quickly grew into a full time job, I have had lots of friends help me in the business as it has grown as well as some part time employees. I hired my first full time employee 3 years ago and continue to have part time help as well.

My wife Jodie & I have been married for 33 years, we have 1 daughter Whitney, son-in-law Phil and 2 grandchildren Blair 7 & Bowen (Bo) 5. (see pictures below) Jodie & I along with the Funke team have really enjoyed meeting and getting to know many of you at conventions, shows, via phone calls, emails etc.

We hope you enjoy our new catalog! You will notice we are offering many new products. Please visit our website to see all of our items. All products have photos on our website, or you can always call us during our business hours to inquire about any of our products. We value any input you have regarding the catalog, website or anything regarding Funke, please call, email or stop by our new location.

As always, we wish to continue providing excellent customer service and carry high quality products. If there is a product you would like, but can't find it in our catalog, give us a call and we can see if we can order it in for you. We are happy to help you get the supplies you need and we value our customers and their input.

Thanks for your support of our business!

Best wishes to you all as you prepare for another busy and productive season. We enjoy hearing your stories from the line, and we look forward to serving you!

We thank our customers for their continued support!
