METHOD FOR FIRE RESPONSE

REMOVE anyone in immediate danger from the fire to a safe area. Get out as safely and quickly as possible.

ALERT Call 000 to report the location and current extent of the fire.

CONTAIN Close all doors and windows that you can safely reach to contain the fire. During evacuation close the doors behind you.

EXTINGUISH the fire if it is safe for you to do so. Retrieve the nearest fire extinguisher and follow the "P.A.S.S." procedure:

1. Pull the pin breaking the plastic seal
2. Aim at the base of the fire
3. Squeeze the handles together, and
4. Sweep from side to side.
