Let's brighten their future...

with a STATIONERY SUPPLY DRIVE

There are an estimated **3.7 million orphans** in South Africa, about half of whom have lost one or both parents to AIDS; and **150,000 children are believed to be living in child-headed households**.

The **Kagcisham Women Development Center** was founded with the sole aim of supporting AIDS orphans in underserved communities.

Their mission is to assist these children to meet and explore their potential without having to worry about the lack of access to learning materials, food, and support all of which impacts their self worth.

Kagcisham currently supports 120 children in and around Protea (Soweto) through the creation of various programmes that tackle skills development, emotional counselling, health and nutrition, as well as education thus empowering these young people with the confidence they need to create successful lives.
