

Riverside Active Transportation Plan

The City of Riverside and Alta Planning + Design are currently working on creating a **P**edestrian Target Safeguarding Plan, **A**ctive Transportation Plan, a **C**omplete Streets Ordinance, and a **T**rails Master Plan for Riverside. These Citywide Plans will provide a framework for a multi-modal network for the City of Riverside's future bicycle and pedestrian improvement projects.

A What is a Pedestrian Target Safeguarding Plan?

- Prioritized strategies to ensure high volume pedestrian areas are safe and secure.
- Elements that deter vehicular attacks as well as reduce accidental collisions.
- Design of public space that is functional and has visual enhancing street elements.

B What is an Active Transportation Plan?

- A comprehensive set of strategies to ensure improved options for biking and walking.
- Recommendations for prioritizing infrastructure improvements.
- New policies, processes, and infrastructure based on community input.

C What is a Complete Streets Ordinance?

- Guidelines to ensure users of the street are able to safely travel regardless of age, ability, or mode of transportation complying to ADA standards.
- Promotes multi-modal access of roadways and sidewalks to ensure accessibility to employment and activity centers.
- Allows sidewalks and bicycle paths to be included in capital infrastructure projects/new development and transit priority treatments.

D What is a Trails Master Plan?

- Provides opportunities to create and expand multi-modal facilities, for both recreation and transportation purposes.
- Improves connectivity to key destinations, eliminate gaps in the trail system, integrate into the active transportation network, increase safety and accessibility, support economic development, and enhance the quality of life for the community.
- Allows for investment in future trail connections and opportunities to expand the network.
