

Touch Dimmer

Model No. TSDS01-3A

Touch Dimmer can control DC 12V/24V directly driving led lighting products, such as led cabinet light, led rigid bar and led strip.

- Adopts capacitance touch technique
- Work as an On/Off switch and dimmer
- Memory function, remember the last scene
- Includes 3M double coated tissue tape for easy placement in any surface
- Ultra low profile and slick design
- Handle big loads up to 72W capability
- 2 years warranty

Specification

Input Voltage	DC 12V/24V
Max Current	3A
Max Power	36W at DC 12V input 72W at DC 24V input
Dimension	1.21*0.34*1.50in
Cable	Input cable 4 5/8 in Output cable 8 1/2 in
Working Temperature	32-165F

Instruction

- 1) Touch the dimmer metal body.
- 2) If touch less than 5 seconds, lights will turn on/off.
- 3) If touch more than 5 seconds, lights will dim up or down.
