DESCRIPTION

GO TECH Dry Formulation is recommended for all crops where zinc and manganese may be deficient. However, misapplication may result in serious injury to susceptible crops. GO TECH Dry Formulation is intended to be used in combination with GO TECH Liquid Formulation to create a stable coating and should not be used separately.

MIXING AND APPLICATION

Thoroughly mix 10-30 lbs of GO TECH Dry Formulation per 1 ton of granule fertilizer or granule fertilizer blend using any conventional blending equipment that is suitable for handling both dry and liquid products such as declining weight belt, auger, batch, tower, tumble or barrel blenders. Then spray on 1-1.5 gal of GO TECH Liquid Formulation using conventional liquid delivery systems while final blending or tumbling is taking place to tack on the powder to the granules. The coating system components may be applied either in a continuous or batch process. Drying of the granules is an optional step that may not be necessary depending on the blending operation selected.

NOT TO BE SOLUBILIZED IN WATER FOR APPLICATION

APPLICATION VOLUMES

Apply 10-30 lbs per ton of granule fertilizer or granule fertilizer blend.

COMPATIBILITY AND USES

GO TECH Dry Formulation is suitable for use in coating of dry fertilizer granules or dry fertilizer granule blends. GO TECH Dry Formulation is intended to improve micro-nutrient fertilizer distribution, decrease fertilizer blend segregation, increase nutrient availability of coated fertilizers during the growing season, and finally increase nutrient distribution into the soil.

STORAGE:

Store in original container, tightly closed and in a dry, cool area away from foodstuffs.

DO NOT contaminate water, food or feed by storage and disposal.

NOT FOR AQUATIC USE

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

CONDITIONS OF SALE

The manufacturer warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of the manufacturer. In no case shall the manufacturer be liable for consequential, special or indirect damages resulting from the use or handling of this product. The manufacturer makes no warranties of merchantability or fitness for a particular purpose or any other express or implied warranty except as stated above.

KEEP OUT OF REACH OF CHILDREN

DANGER

HAZARD STATEMENTS

HARMFUL IF SWALLOWED

CAUSES SKIN IRRITATION

CAUSES SERIOUS EYE DAMAGE

VERY TOXIC TO AQUATIC LIFE WITH LONG LASTING EFFECTS

FIRST AID

General: If you feel unwell, seek medical advice. Inhalation: Remove person to fresh air and keep comfortable for breathing. Skin Contact: Rinse skin with water/shower. Take off contaminated clothing. If skin irritation occurs: Get medical advice/attention. Eye Contact: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician immediately. Ingestion: Rinse mouth.

PRECAUTIONARY STATEMENTS

Wash skin thoroughly after handling. Do not eat, drink or smoke when using this product. Avoid release to the environment. Wear eye protection, protective gloves. Immediately call a doctor, a POISON CENTER Collect spillage. Dispose of contents/container to comply with local, state, and federal regulations.
