

SAVE MONEY ON YOUR ENERGY BILLS

www.rbwm.gov.uk

Many residents are paying too much for their energy.

The Royal Borough's Energy Switch to Save scheme uses collective purchasing power to help all residents save money on their energy bills and make it as simple as possible to switch supplier.

The more people that sign up the better the deal we are likely to achieve. See how much you can save by registering now!

Public computers are available in the borough's libraries and the Maidenhead Town Hall if you don't have internet access at home.

If you are physically unable to reach a computer or do not feel confident using the internet, a call back can be arranged with a council officer to get you registered. Please call **01628 683800** to arrange your appointment.
