Peoples' Vetoes Update

It is with a saddened heart that we inform you that we did not reach the necessary signature threshold to get the taxpayer funded abortion and doctor prescribed suicide laws on the ballot for the people to decide.

Although we are disappointed, we will never be deterred from defending innocent and vulnerable life at all stages of development.

We are called to be faithful, and that we have been. Thank you for your loving stewardship on behalf of our most vulnerable. Our True North is being faithful to the Lord of Life, regardless of outcomes.

It is with a joyful heart that we inform you that the hundreds of volunteers and tens of thousands of supporters who participated in this program helped to revitalize Maine's pro-life grassroots movement. Mainers from all counties in the state

enthusiastically participated in this pro-life endeavor, and for that we are most grateful.

Now is the time to regroup and devote time, talent, and treasure to help to elect and re-elect pro-life candidates---legislators with strong character, common sense, and compassionate hearts-- determined to defend vulnerable populations. We need candidates and legislators who will build the culture of life, and overturn the radical progressive agenda which places politics over the very lives of our most vulnerable people.

Our mission is to save lives. Everyday. Every week. Every month. Every year.

Any public policy which classifies killing as a medical treatment is ruthless, reckless, and wrong, regardless of the rhetoric surrounding it. Suicide is always a tragedy, and abortion is not healthcare. State-sponsored abortion and assisted suicide is never the answer, even if the law enshrines it. Hospice and pregnancy resource centers offer real love and compassion for our vulnerable.
