

Beyond the HIE Data?:

Florida HIE Alerts provide critical information for managing inpatient care in real time.

Join our panel of experts to explore emerging apps that present those alerts to providers, care coordinators and ACO staff in appealing and actionable formats. From inter-professional communication to seamless claims mining, the HIE Alerts should be a cornerstone of your quality and cost strategies. Learn how those managing Value-based care models are using the HIE alerts in new and improved formats.
