# ASSEMBLY INSTRUCTION FOR VENICE WALL BACK

- Apply glue in small amounts at dowel joints.
- Hardware Kit to be found in the bottom of the rack.

The mounting brackets pre-attached to the back of the wall rack are located to facilitate stud mounting. Which is recommended

For stud mounting locate the stud center and securely attach the mounting brackets using the provided wall screws. For stud mounting use the middle(2)holes on the bracket.

If you are unable to mount the wall rack using the studs, drywall anchors must be used to safely support the weight of the wall rack.

For drywall anchor mounting please use the outside(2)holes in the bracket.

Hang the wall rack on the wall as shown. Make sure wall rack is secure.

## ASSEMBLY STEPS

1. Attach Top
2. Attach Base
3. Attach Interior Shelves
4. Attach interior Shelf Screws on Back Board
5. Attach Bottom Piece
