

# WHAT IS IT?

Sarah and Amanda, two Speech Pathologists, became interested in starting a program that will serve children in a more natural communication environment than the traditional 30 minute, walk-in session. Our vision consists of ten kids in a session, two SLP's, and an assistant.

The structure of our Preschool groups will be presented in the evidenced based methodology of T.H.E. P.A.C.T., an instructional method that has been proven to simplify learning for students of all abilities. This format combines technology with both receptive and expressive language components. Our two-hour sessions will be both literature and theme-based. There is much evidence in the literature about the benefits of adult-child storybook reading. This program will provide opportunities to efficiently build alphabet knowledge, print awareness, phonological awareness, and oral language skills.

We know movement activities are beneficial to the children we are serving. We found Kidding Around Yoga, and we are certified instructors. KAY will be a part of all language groups. The benefits of childrens' yoga include: increased confidence, improved concentration, stress management, introduction to mindfulness, teaching through stories and song, increased social skills, and increased coordination and balance.

## WELCOME

Artful Expressions Preschool Language Program helps children build vocabulary and language skills important to learning. Parents will discover specific strategies that support good listening, speaking and reading. Creative play, songs, stories and social interaction will make it fun for all!

## PRESCHOOL LANGUAGE GROUPS

An intensive, literature, play, and theme based service delivery model for Preschool Speech Therapy.

## Preschool Hours and Information

2, 3, or 5 day a week  
options

Mornings 9:00-11:00

Afternoons 1:00-3:00

\$40.00/ day

DDA respite funds  
accepted

(360) 219-9236

(360) 229-5363

Hands on activities for  
multisensory learning.  
Thematic language sessions  
featuring T.H.E. P.A.C.T.  
Methodology. We learn  
about, read about, write  
about, and talk about all  
themes presented.

Kidding Around Yoga helps our  
kids gain literacy skills by having  
them skip around the room, jog  
through the jungle, or do the yoga  
slide. This is just one of the many  
benefits of having a kids' yoga  
program.

Our preschool language programs  
are designed to develop and nurture  
cooperative and imaginary play skills.  
Language is elicited through structured  
and unstructured activities and play  
by creating natural opportunity for  
social interaction.
