

SOCCKER TOUCH ACADEMY

PRE-TRYOUT CAMP 2015

Due to strong demand from our STA family members, we will be offering a spring pre-tryout camp for the 6th year. STA is really excited to be offering this program once again. The purpose of this training curriculum is to help players fine tune their technical skills, increase their confidence level, and give them specific knowledge in regards to the tryout process, as well as put players at ease as opposed to having them show up nervous, or stressed with an overload of information. One of our many goals is to help players make a team, or even move up a team on their own. We believe that our philosophy will help build a positive attitude going into tryouts. As an old coach of mine use to say, "Its not life or death, soccer is only a game." There is so much that can be accomplished in four hours of training. STA is not going to mislead players or give false hope . We believe that honesty and practical information given in regard to the tryout process is more beneficial than a jam packed curriculum. One thing that we can guarantee is that players leaving this program will have the passion, desire and determination needed to face any challenge given to them.

Luis Dominguez Sr. Director of Coaching

Main Focal Training Points

STA will focus on several technical aspects of your game in a controlled setting which will provide tremendous repetition. The curriculum will focus on first touch, passing and receiving, combination play as well as shooting and finishing. We will also touch on situational play and what to do in certain situations that will present themselves in the tryout process. Defending will also be incorporated as well. STA has a proven recipe of success that has been beneficial to several youth soccer players in the Northern Colorado area.
