

1 Make Sure You Have:

▶ Screen or projector with HDMI input port

▶ Internet connection

INCLUDED IN BOX:

▶ Nii ArtConsole

▶ Power Adapter

▶ Wi-Fi Antenna

▶ HDMI Cable

▶ USB Mouse

2 Connect HDMI Cable

- ▶ Plug the HDMI cable in to one of the HDMI ports on the display screen or projector.
- ▶ Connect the other side of the HDMI cable to the Nii ArtConsole. The console must NOT be plugged in to a power source when it's first connected.

3 Connect to Power

- ▶ Turn ON the display screen or projector. Make sure it is set to the HDMI source you plugged in (step 2).
- ▶ Plug the Nii ArtConsole in to the power supply. The ArtConsole will turn on automatically.

⚠ IMPORTANT:

Plug the Nii ArtConsole into a power source only AFTER it has been connected to the display HDMI source.

4 Setup Internet Connection

- ▶ On the display you will see a launch screen. Follow the instructions on the screen to connect the Nii ArtConsole to Internet using an Ethernet cable or a Wi-Fi connection.

⚠ PLEASE NOTE:

If you are using a Wi-Fi connection, please make sure the Wi-Fi antenna and mouse USB cord are connected to the ArtConsole.

5 Pair Display With Nii Account

- ▶ Once the Nii ArtConsole is connected to the Internet and the short initiation process is completed, a Login screen will appear.

⚠ In order to proceed, please make sure you have an active Nii account. If you don't have a Nii account yet, please create it on www.nii.com or contact support@nii.com

6 Pair Manually

- ⚠ If you would like to pair the display to your Nii account using Nii's Remote App (iOS or Android), please skip to Step 6A.
- ▶ Use the mouse, remote control or other input device to enter your Nii account credentials. After pairing your screen to your Nii account Skip to Step 7 to begin displaying artworks.

Flip the page to proceed >>

6A Pair Using Nio Remote App

- ▶ Download and install the Nio Remote App on your Smartphone.
- ▶ Login to the Nio Remote Mobile App. Click the "Scan QR to Pair" button. The App will open your Smartphone camera.

6B Pair Using Nio Remote App cont.

- ▶ Scan the QR code that appears on the screen using the Nio Mobile App. Your account will pair automatically with the display.

7 Artwork Display

- ▶ After successfully pairing your screen with your Nio account, the content from your account will be automatically downloaded to your Nio ArtConsole. The download time may vary depending on your Internet connection speed and the size of the files being downloaded.
- ▶ Once an artwork is downloaded, it will start playing automatically.
- ▶ You can control the playback of artworks on the Nio ArtConsole using the mouse, web account or Nio Mobile App.

⚠ In order to display artwork on your paired screens, you must have already uploaded content in your Nio account. You can upload images to your account at any time.

* Troubleshooting

If you cannot see a picture on your display:

- ▶ Make sure the connectors on the HDMI cable between your ArtConsole and your display are pushed in all the way.
- ▶ Make sure the power cable for the ArtConsole is connected snugly to the ArtConsole on one end and to a working power source on the other end.
- ▶ Make sure the video input (Source) on your display receiver is set to match the right HDMI connection you plugged in to the Nio ArtConsole to. Most displays have an Input (Source) button on the remote control to change video inputs.
- ▶ If you still do not see an image, we recommend unplugging the ArtConsole power cable and then plugging it back in.
