

FRPRCS-13

The 13th International Symposium on Fiber-Reinforced Polymer Reinforcement for Concrete Structures

October 14-15, 2017
Anaheim, California

In Conjunction with the ACI
Fall Convention, sponsored by
ACI Committee 440

Call for Papers

Deadline Feb. 15, 2017

Send Extended Abstract to
frprcs13@gmail.com

- ❖ Sustainability of FRP-reinforced concrete structures
- ❖ Effect of environment on durability
- ❖ Bond and anchorage of FRP bars, grids and laminates to concrete
- ❖ Strengthening of concrete structures using FRP systems
- ❖ Design and performance of FRP-reinforced/strengthened concrete under sustained and fatigue loading
- ❖ Seismic resistance of concrete structures using FRP materials
- ❖ Testing of FRP material characteristics
- ❖ Field applications and case studies
- ❖ Effects of extreme events on FRP-reinforced/strengthened structures

- ❖ Global codes and standards
- ❖ Emerging FRP systems
- ❖ FRP reinforcement of masonry
- ❖ Other topics related to FRP in concrete and masonry

Extended Abstract including text, tables, figures and keywords should be no more than TWO pages (template available at www.frprcs-13.com). Presentations are limited to one per presenter. **Full-length papers upon abstract acceptance are due July 15, 2017.**
