MID YEAR STUDENT PROFILES & STUDENT LED CONFERENCES

Student profiles will be sent home at the end of this week, Friday 22nd June. This year we will be reporting in relation to expected curriculum levels because National Standards have been removed. Apart from making this change, the Mid Year Report will be the same as the 2017 format which we hope you found easy to understand and which clearly identifies exactly where your child is at with his/her learning. You will quickly be able to see areas of strength or areas where your child is below the expected level for their age or time at school. Education is a partnership and it will be very important for you to discuss the profile with your child and talk about ways you can support their progress at home. This may mean ensuring that reading practice happens every night, that spelling work is being done and words are being practised and that basic facts flash cards are being used every night to improve students' knowledge and fast recall of these. Time spent at home on these tasks really does make a difference to your child's progress and their learning. Celebrate progress, achievements and the reaching of goals set earlier in the year, and also help your child identify possible goals for the remainder of 2018. Please bring your child's profile to their student led conference in Week 9.

SOKS

The Scholastic Book Fair - Tuesday 26, Wednesday 27 & Thursday 28 June from 3pm to 7pm in the Dino Den (Ako)

SOKs Skiing at Cardrona - This popular 4 day programme takes place again this year in September (7th, 14th, 20th and 21st). See the attached flyer for more information and pricing. This is a great programme and is parent driven. You must get your child up the mountain or arrange a friend to do so for you. But don't worry, make it up the mountain and you are rewarded with child-free heavily reduced skiing, or for the non skiers, great coffee and conversation. If you are interested please email Damian MacKenzie to obtain the registration form. (damian.mackenzie@adama.com)
