EPIPEN® AUTO-INJECTOR DIRECTIONS

- 1. Remove the EpiPen Auto-Injector from the clear carrier tube.
- 2. Remove the blue safety release by pulling straight up without bending or twisting it.
- 3. Swing and firmly push orange tip against mid-outer thigh until it 'clicks'.
- 4. Hold firmly in place for 3 seconds (count slowly 1, 2, 3).
- Remove auto-injector from the thigh and massage the injection area for 10 seconds.

ADRENACLICK® (EPINEPHRINE INJECTION, USP) AUTO-INJECTOR DIRECTIONS

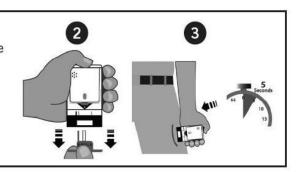

- 1. Remove the outer case.
- 2. Remove grey caps labeled "1" and "2".
- 3. Place red rounded tip against mid-outer thigh.
- 4. Press down hard until needle enters thigh.
- 5. Hold in place for 10 seconds. Remove from thigh.

AUVI-Q™ (EPINEPHRINE INJECTION, USP) DIRECTIONS

- Remove the outer case of Auvi-Q. This will automatically activate the voice instructions.
- 2. Pull off red safety guard.
- 3. Place black end against mid-outer thigh.
- 4. Press firmly and hold for 5 seconds.
- 5. Remove from thigh.

NOTE: Consider lying on the back with legs elevated. Alternative positioning may be needed for vomiting (side lying, head to side) or difficulty breathing (sitting)
