About Brian:

Brian Parsonage Kelly has worked in show-business all his life and founded the Brood agency in 2003. Brood clients work in everything from unpaid Fringe to big budget Hollywood, from corporates to cruises, from West End to regional theatre and in radio and television.

Brian believes an actor's success is about luck, connections and charisma, all of which are sometimes more important than training and technical ability. He is always on the look out for a performer with something special.
