

Aura Imaging with Hattie Parker, MS Ed: Energy Educator

Do you have a passion for cultivating and maintaining well-being - body, mind and spirit?

Would you like to know how to remove energy blocks to your ability to function at your very best?

About An Aura Imaging Session

Part One -- Imaging: Your body is surrounded by an electromagnetic field. The frequencies of this field can be measured and expressed in colors. The Biopulsar Aura Imaging System technology captures a moving image of your aura. The initial part of your session will involve three separate energy scans. You will receive 2 color prints of you aura, and will have the opportunity to take cell phone pictures of the scans. (Time 15 - 20 minutes.)

NOTES: People often inquire if auras are infinitely changeable. As auras are seemingly just etheric it is thought that they must be very fluid. That question needs an "it depends" answer. Similar to your relationship with your physical body, you have been forming your personal energy field (body) over your whole lifetime. Your physical body is a reflection of how you have used it, what you have eaten, your exercise, etc. etc., etc. The story of your aura has to tell relates to how your vital life energy has been used over your lifetime. We take 3 scans to offer insight into what is core information as compared to in the moment responses. Notice the auras of the person displayed above are quite different from each other and, however, to the trained eye it is possible to see consistencies between and among them. The information gleaned makes it possible to offer targeted guidance on how to overcome inner weaknesses and challenges.

Part Two -- Interpretation and Guidance Hattie Parker, MS Ed has been using the Biopulsar Equipment for over 12 years and has coached over 3000 people on how to gain benefits from seeing their energy fields. You will have the opportunity to:

- Gain clarity about your general well being combination with insights into your inner being:
- Deepen your understanding of your energetic strengths
- Learn targeted, personalized guidance for self-care to remove blocks
- Ask questions about personal concerns

Optional: A recording of the session for future reference (in person - you record, or by phone : a download link to the content shared.

It was fascinating, fun, and I learned invaluable self-care techniques that have truly improved the quality of my life and well-being.
Carol S., Entrepreneur and mother of 3

The fee : \$125.00
