

# Save the Cedar River!

*You are cordially invited to a community meeting.*

When: July 20th

Where: Fairwood Library

What Time: 11am-12:15pm

SAVE THE CEDAR RIVER  
[savethecedarriver.org](http://savethecedarriver.org)

We will be discussing our continuing efforts to thwart an asphalt plant from being built on the Maple Valley Hwy.

Our efforts so far have yielded delays and many items that have come into realization if an asphalt plant was to be built on a Salmonoid River.

**Your property values could be at risk**, the value might drop or your property value will never go up due to an asphalt plant being so close to your home.

We have been diligently working on this issue for almost two years. We have an excellent Legal Team in place. They are not only Land Use, but also Environmental Attorneys that are ready to put a STOP to this nonsense.

Please come to the meeting and Get Informed!

**Air, Traffic, Water, Wildlife and so many other issues are why we are saying this is NOT the place for an asphalt plant.**

See You There!

Sincerely,

Committee for Citizens to STOP the SR169 asphalt plant.
