Below is my info and 2 proposals I have for the grant. Please let me know if you have questions and/or need clarification.

Teacher: Samantha Hull

School: American Canyon High School

Proposal 1)

In my intermediate and advanced art classes, we do a lot of observational art which is best done on a 45-degree surface so I'd like to purchase drawing horses and/or easels. In addition, both are great in reducing the workspace meaning I can jam more students around a still life and/or model. I was planning on purchasing some anyways but with the grant, I could double how many I get. Both options are about \$100 apiece so I am asking for the max \$500.00 to purchase 5.

Proposal 2)

As you may know, we have a small gallery here at ACHS and I'd like \$500 to spruce it up by getting sound dampening material for the walls maybe cork which is also easy to then install artwork on and possibly even carpet. Depending on what's left I'd like to use the remainder for either new lighting and/or professional advertisements for events.
