Illinois
Wisconsin/Minnesota Boundary Waters
Must be constructed of mesh not less than 2 inches bar measure. Shall not be less than 100 feet in length. Nets must be under the immediate supervision of the operator with the following exceptions: 1) from May 1 – September 30, they may be attended every 24 hours. 2) From sunset to sunrise. 3) When set under the ice, they may be attended every 96 hours. 4) When operating under a commercial roe harvest permit and taking roe-bearing species, they must be attended from 10:00 am – 4:00 pm. Shall have a metal tag inscribed with the name and address of the licensee. Each device being used shall be licensed with the IDNR, cost is $18 for each 100 linear yards for residents and $36 for each 100 linear yards for non-residents. Minimum mesh size: 3 1/2" bar. Must be marked with 10' flag. No drifting or dragging. Must lift every 24 hrs. in open water or 48 hours under ice. Constancy of attendance by licensee or operator when drifting or driving. All gear must be tagged with equipment tags furnished by the state.

Wisconsin/Minnesota Boundary Waters
Drift Net
Must be constructed of mesh not less than 4 inches bar measure. Shall not be less than 100 feet in length. Nets must be under the immediate supervision of the operator with the following exceptions: 1) from May 1 – September 30 they must be attended every 24 hours. 2) From sunrise to sunset. 3) When set under the ice, they must be attended every 96 hours. 4) When operating under a commercial roe harvest permit and taking roe-bearing species, they must be attended from 10:00 am – 4:00 pm. Shall have a metal tag inscribed with the name and address of the licensee. Each device being used shall be licensed with the IDNR, cost is $18 for each 100 linear yards for residents and $36 for each 100 linear yards for non-residents. Minimum mesh size: 3 1/2" bar. Must be marked with 10' flag. No drifting or dragging. Must lift every 24 hrs. in open water or 48 hours under ice. Constancy of attendance by licensee or operator when drifting or driving. All gear must be tagged with equipment tags furnished by the state.

Wisconsin/Minnesota Boundary Waters
Gill Net
Must be constructed of mesh not less than 2 inches bar measure. Shall be not less than 100 feet in length. Nets must be under the immediate supervision of the operator with the following exceptions: 1) from May 1 – September 30, they may be attended every 24 hours. 2) From sunrise to sunset. 3) When set under the ice, they may be attended every 96 hours. 4) When operating under a commercial roe harvest permit and taking roe-bearing species, they must be attended from 10:00 am – 4:00 pm. Shall have a metal tag inscribed with the name and address of the licensee. Each device being used shall be licensed with the IDNR, cost is $18 for each 100 linear yards for residents and $36 for each 100 linear yards for non-residents. Minimum mesh size: 2" bar. Constancy of attendance by licensee or operator when drifting. Gill nets having a mesh smaller than 2" bar measure, measured when wet, may not be used. Gill nets must be attended at all times by the permittee's immediate presence where nets are set. Open all year. Mesh size of 1 inch stretch or larger. Gill nets shall be lifted and emptied of fish at least once each 2-day period when set during the remaining open water period and at least once each 4 days when set under ice. Nets may not be used as a drift seine or drift net at any time. Gill nets may not be used in a manner that will shut-off more than one-half of the width of any channel, bay or slough. Net may not be hobbled, doubled or overlapping on itself or with another net to reduce the effective size of the mesh with a second layer of net. Additional restrictions are contained in s. NR 22 (link above).

Wisconsin/Minnesota Boundary Waters
Seine Net
Maximum of 100 yards of seine can be for 1 inch bar measure. Remainder of seine can be no smaller than 2 inch bar measure. No seine shall be more than 1,500 yards in length. If seines are greater than 200 yards in length they must be operated with a backsweep. Seines shall not be operated in less than 2 feet of water. Shall have a metal tag inscribed with the name and address of the licensee. Each device being used shall be licensed with the IDNR, cost is $18 for each 100 linear yards for residents and $36 for each 100 linear yards for non-residents. Minimum mesh size: 3 1/2" bar. Must be marked with 10' flag. No drifting or dragging. Must lift every 24 hrs. in open water or 48 hours under ice. Constancy of attendance by licensee or operator when drifting or driving. All gear must be tagged with equipment tags furnished by the state.
