

Compliance Officer Training

Do you have Compliance Officer responsibilities?

Are you operating with an “Effective” Compliance Program?

Learn the processes to be successful in your position and what should be in place.

The goal of this course is to:

- Understand the requirements
- Understand the responsibilities of a Compliance Officer
- Develop an effective compliance program
- Work the elements to your advantage
- Policy and Procedure development
- Staff Training
- Learn how compliance affects all departments
- Importance of a Compliance Committee
- Compliance Risk Assessment
- Learn to identify threats and risk areas to address
- Learn to develop an audit plan and conduct audits
- Learn how to check Exclusion Lists

The course is designed to be convenient for the student by receiving modules each week to review. A time period will be available for questions after each module is reviewed. A final test will be administered for a certificate of completion.

Course Information: Begins January 15th, 2019 for 12 weeks.

Check or credit card accepted. Payable to Health Care Program Design LLC
5165 Broadway Ste. 226 Depew, NY 14086
