Re: 2011-2013 Best Practice Programs

Congratulations! Your program report, **Linking Together against Syndrome X** has been chosen as a "Best Practice" report for Umbrella Programming. Based on the peer review of your report, your chapter is providing exemplary services to your community. Please confirm that this is the title of your program.

Effective programming is the heart of Linkdom and for that reason we take the program review process seriously. In that vein, the Program committee requests documentation of your chapter's work. The documentation will be used to further assess the merits of the respective programs.

The requested documentation should substantiate the content and reflect the time period of your report: beginning May 1, 2011 to cover the 2011-2013 Biennium. At your chapter's discretion, the documentation should include, but not be limited to: newspaper/magazine articles, pictures, flyers, facet reports, sign-in sheets, planning and evaluation data or any other materials as deemed appropriate.

Documents must be submitted in electronic format, i.e., scanned or digitized. Acceptable file formats include .doc, .pdf, .jpeg, .gif, .tiff and .png. The documentation should be copied to a CD or jump drive and mailed to:
